PLANT AMERICA

Howard C. Taylor, Owner-Manager

In times of stress and emergency the mission of providing beauty, enjoyment and relaxation take on added significance. When devastation is going on in foreign lands, the purpose to "PLANT AMERICA" assumes more and more importance.

We here at Rosedale Nurseries believe our two greatest assets are an unusually fine soil for growing nursery stock and our convenient location. It is so easy to reach the Nursery from either Saw Mill River Parkway or Saw Mill River Road (Route 9A) that we hope you will drive in often. It will be our pleasure to show you nursery stock of superior growing, hardy and well-rooted and you will, we believe, find it a pleasant place to secure almost anything in plants.

Drive in and see us anytime during the planting season which, incidentally, under our improved methods now extends to almost the entire year. The needs of the Armed Forces cut into our staff, but we shall do our best to care for your wants. The Nursery never contained more fine stock than we now offer.

Howard C. Taylor

For Your Convenience

In this catalog, we have tried earnestly and diligently to give you the most accurate scientific descriptions and information in easy, understandable terms, and so enable you to select wisely and have the rich, warm pleasure of working with the soil and beautifying your own home.

Opinions and recommendations are based on growing habits

LOCATION—It is so easy to reach the Nurseries, situated as they are on two main thoroughfares—the Saw Mill River Parkway and Route 9A. Entrance on both roads, 3½ miles north of Elmsford. 1 mile south of Hawthorne Traffic Circle. 1½ miles north of Eastview on the Saw Mill River Parkway.

MAIL AND SHIPPING ADDRESS—Eastview, New York.

TELEPHONES—Tarrytown 4-2620. Pleasantville 2-0889.

HOURS—7:30 to 6 p.m. Monday through Saturday—9 to 5 p.m. Sundays, March 11 through June 10, 1951.

ORDERING—At the Nursery: Come to the nurseries and select your plants where they are freshly dug. Many of the plants can be taken with you in your car and our men know how to pack them in without damage to plants or car.

By Telephone—Order by telephone and we will have the plants ready for you to pick up or if you are in our free delivery area, we will deliver.

By Mail: For complete instructions for ordering by mail, please refer to page 35.

The greatest care is exercised in the selection and digging of your stock whether you order in person or not.

COMPLETE LANDSCAPE SERVICE—Please refer to pages 2 and 3.

GIFT CERTIFICATE—More and more people are finding this to be the ideal way of remembering birthdays, anniversaries and other special occasions. For full details, please see page 35.

The illustrations and prices are typical of our large and varied stock, but specific plants may not be available at all times. We reserve the right where necessary to change prices without notice and to charge for specimen plants according to their individual value.

Our Guarantee:

We guarantee all nursery stock to be in first-class condition when delivered to the customer. Please advise us promptly of any damage or loss in handling.

We guarantee our nursery stock to be true to name and use every care to properly label as sold. Should any prove untrue we agree to replace or refund purchase price.

Provided account is paid in accordance with agreed upon terms and plants have received reasonable care, we will replace at one-half price of the plants, any woody plants furnished which if planted in the Spring fail to survive through the Summer, or if planted in the Fall, fail to leaf out the following Spring. Plants originally planted by us shall be replaced as above plus the cost of planting.

observed in our nurseries. Appropriate allowances must be made for variations in climate, temperature, exposure and elevation even within Westchester County.

Although authorities differ, we have tried to give you the consensus of opinion in coding our plant material as to speed of growth:

One of our planting crews finishing the removal and cleaning up of brush and weeds from an unused lot and starting planting

The same lot seeded and planted now adds a feeling of spaciousness to the small home.

New modern methods now make it possible to transplant trees in full leaf with complete success, thus extending the planting season. This Maple was treated with a plastic spray to prevent desiccation and is shown after transplanting in July.

Rosedale's

Can Bring You The Warm Pleasure
Grounds Through Its

PLANNING

Our landscape nurserymen will prepare for you a planting design without charge or obligation.

—AND—

PLANTING

We show you the plants and our experienced, trained crews will plant to complete the picture.

It's As Simple As That!

For there's no by guess and begorra in a Rosedale planting. It's a well-thought out plan.

Fifty-three years of know-how in the nursery business blend together the right plants for the right place on **your** home grounds.

That is why we like to talk with you first when landscaping for **you**—in order to learn your likes and dislikes before drawing up a plan. After you study the plan, showing **what** plants go **where**—this is submitted with an estimate of costs—you may still make changes before the planting starts so that results will be as you wish.

Even a home nestled among towering shade trees can be well-planted with proper selection of shade-loving plants.

Planning Service

And Pride Of Well-Landscaped Home Happy Combination Of

We love to have you come to the nursery personally to see what the suggested plants look like. (And we are proud to show you our acres and acres of bushy, sturdy stock

in the innumerable varieties and types open to your selection!) Yes, we use those "awful" botanical names—but you'll be glad we do when you know it protects your buying—so you will get true to name varieties, what you ask for.

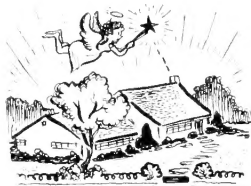

Common plant names are like nicknames—mean one thing here and another there without positive identity.

So it's no witch-craft for us—no changelings in plant materials; no spooky,

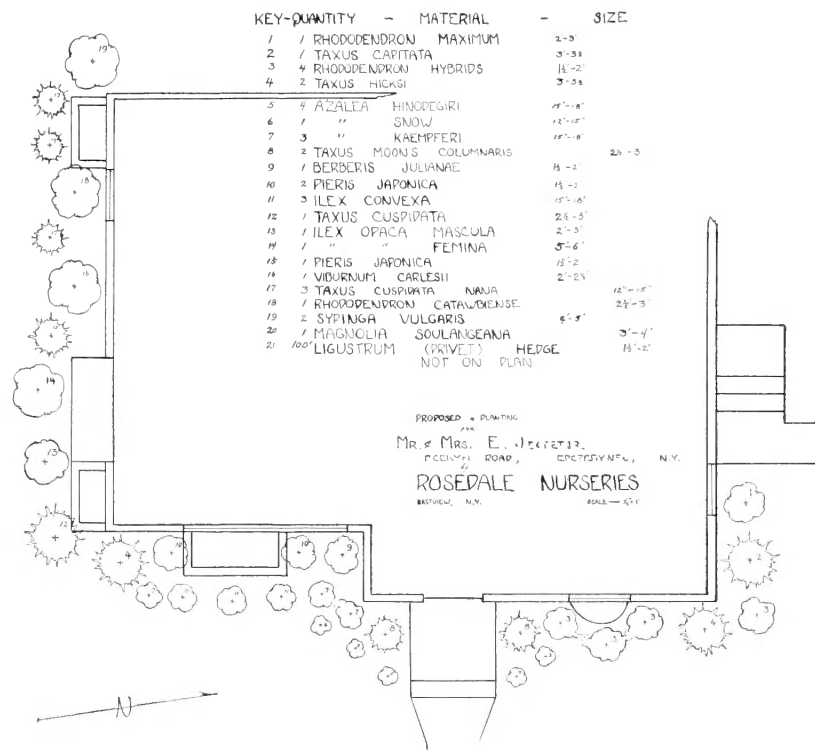

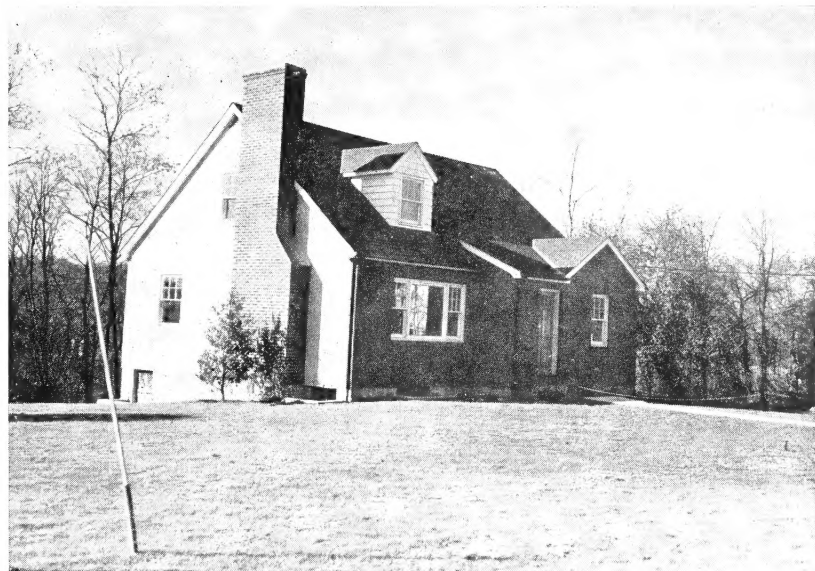

half-hidden and darkened houses after a few years if Rosedale does the planning and planting; no harried papas with machetes cutting through the overgrowth on a hot, humid Summer afternoon when relaxation should be the program for the day!

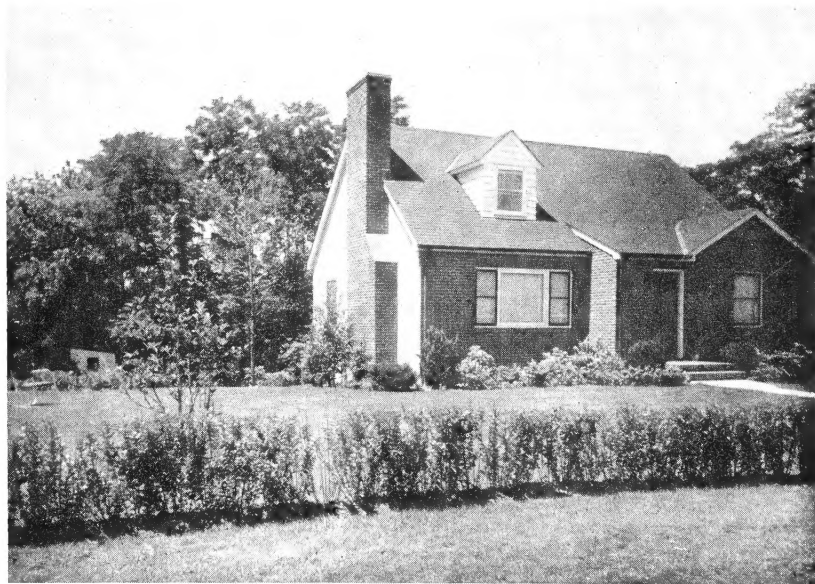

No, there's no witch-craft at Rosedale, but there is a strong sense of beauty, a utilitarian outlook, a knowledge of plants and their growing habits—and well—maybe just a touch of magic—to give you the beautiful, restful home grounds you want—your haven, your heaven, whether a small lot, an acre or huge estate.

You are very cordially invited to avail yourself of Rosedale's complete landscaping service—i. e., planning and planting. No charge for plans to any Rosedale landscape client.

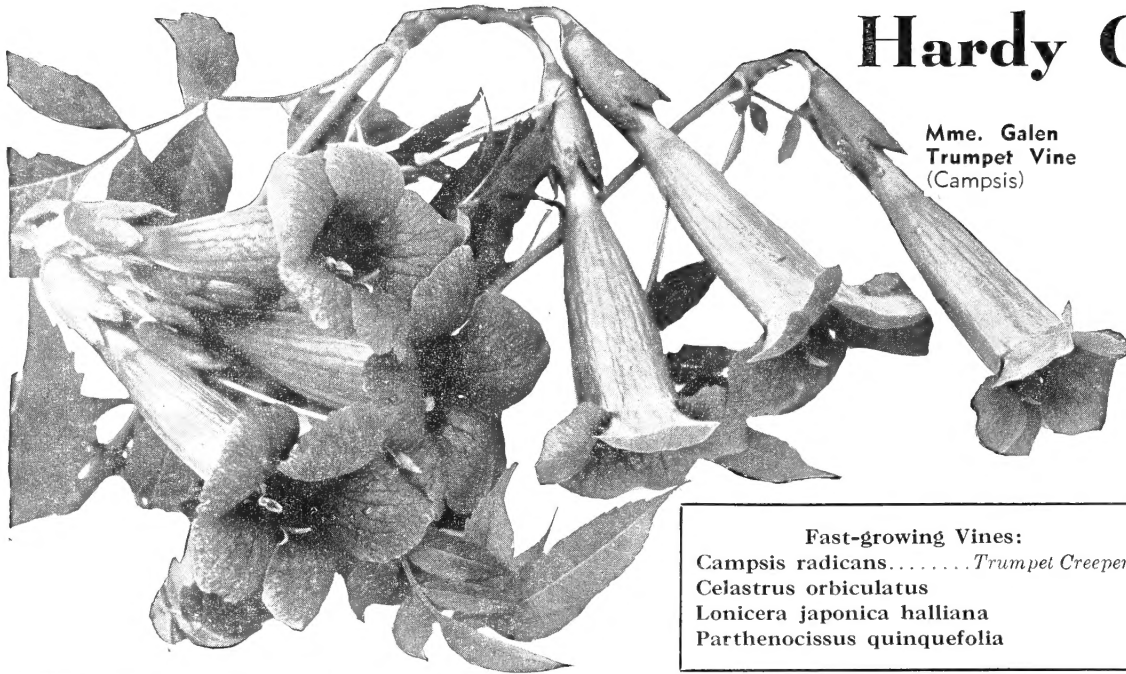

Beauty and complete privacy can be obtained through proper planting. Note interesting treatment of wall.

As an example of Rosedale's Planning Service we show here a house, newly-built and without planting. A planting plan was drawn up, showing the layout of the plants and the varieties and sizes suggested. The home with the foundation planting and hedge gives a warm, hospitable feeling. The materials including peat moss and humus amounted to \$285—preparing the soil and planting \$75—total job installed for \$360

Hardy Climbing Vines

Mme. Galen
Trumpet Vine
(Campsis)

Our cheery, reliable Vines — some evergreen, many flower-bearing—transform bare walls and fences and fill in and soften new undeveloped plantings, creating a feeling of warmth, beauty and permanence. To aid you in starting a quick vine growth, we have preplanted in pots most of our varieties and many will climb 6 to 10 feet the first season.

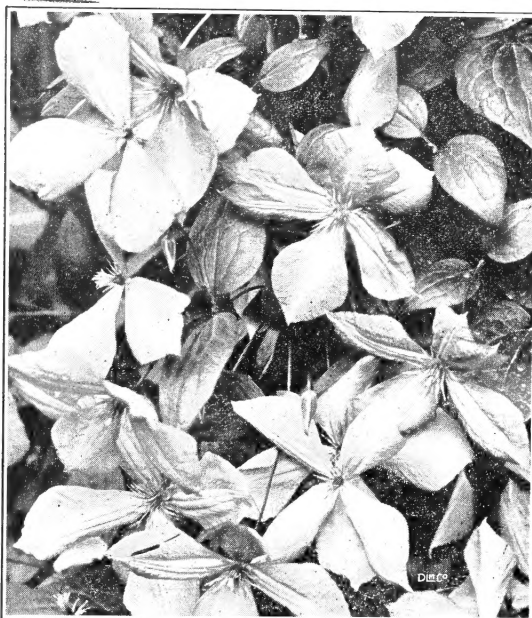

For planting Vines, please see directions for planting bare root material given at the beginning of the Shrub list.

Fast-growing Vines:

Campsis radicans.....Trumpet Creeper
Celastrus orbiculatus
Lonicera japonica halliana
Parthenocissus quinquefolia

Medium Fast-growing Vines:

Euonymus radicans
Hedera helix.....English Ivy
Parthenocissus tricuspidata...Boston Ivy
Wisteria chinensis.....Wisteria

Clematis Jackmanii

AKEBIA quinata. A very graceful, rapid growing vine. The foliage is extremely attractive and the rosy purple flowers in May are followed by ornamental fruit. F
2 yr.....90c. each, \$10.00 per doz.

CAMPISIS radicans (*Trumpet Creeper*). Orange-scarlet, trumpet-shaped flowers in clusters from July to September; rapid grower but does not flower young. Must be supported. F
2 year.....\$1.00 each, \$10.00 per doz.

C. tagliabuana, Mme. Galen. An especially fine variety similar to above but with very large, striking salmon-red trumpets. We highly recommend this decorative vine. M
2 year.....\$1.25 each

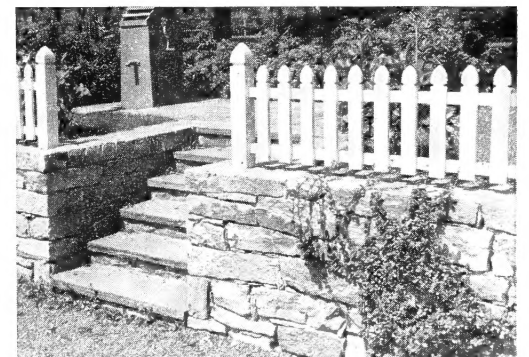

CELASTRUS orbiculatus (*Oriental Bittersweet*). Well known native Bittersweet. Splendid for fences and rocks or will make a shrub. The Oriental variety differs from the native only that it bears more berries. F
2 to 3 ft.....\$1.00 each, \$10.00 per doz.

CLEMATIS dioscoreifolia (paniculata) (*Old-fashioned Clematis*). The sweet September fragrance of this old favorite indicates its presence long before the flower-laden vine is seen, and the feathery seeds are also decorative. Belongs to the home. F

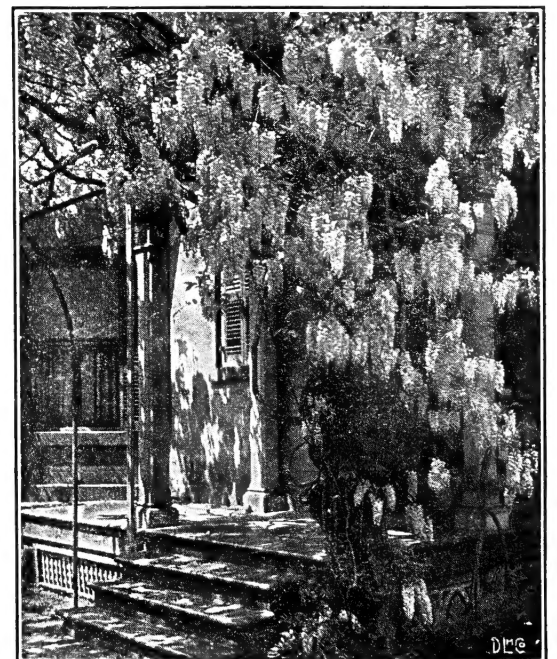

2 year.....75c. each, \$7.50 per doz. | 3 year, heavy potted.....\$1.25 each

C. Jackmanii (*Purple Clematis*). Large, purple single flowers from June to August. Striking. M
No. 1, 2 year.....90c. each, \$10.00 per doz. | 6 in. pots.....\$1.25 each

C. Jackmanii, Mme. Andre. Large, red single flowers throughout the Summer. S
No. 1, 2 year.....\$0.90 each
6 in. pots.....1.25 each

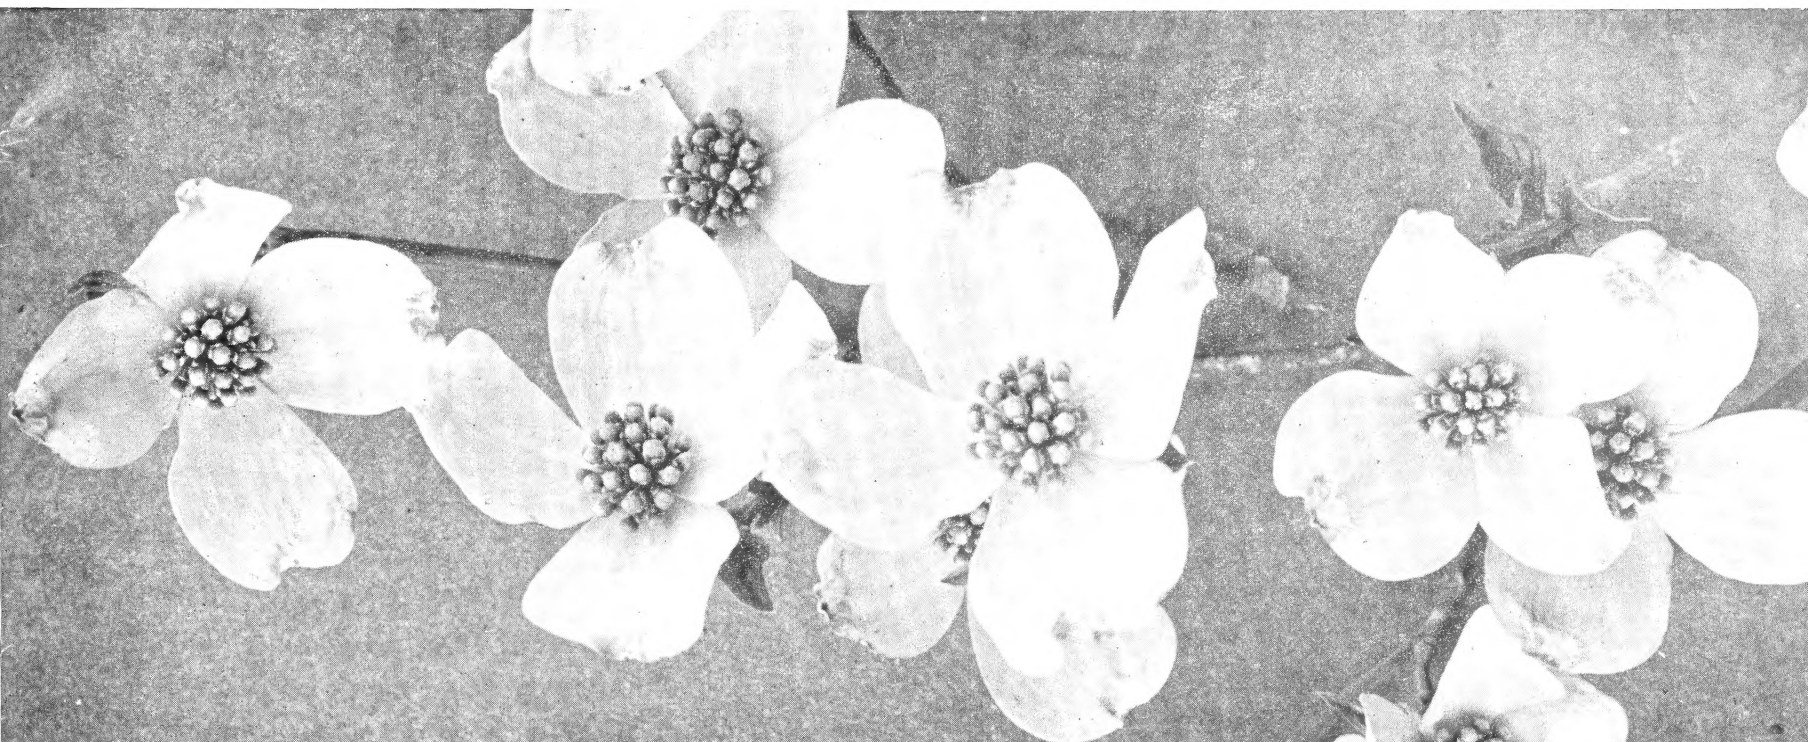

Euonymus vegetus
Ideal Evergreen Vine for Walls

Wisteria Vines Provide Shade as Well as Showy Blooms

- C. Jackmanii, Ramona.** Large, lavender-blue single flowers throughout the Summer. S
No. 1, 2 year.....\$0.90 each | 6 in. pots.....\$1.25 each
- C. montana rubens.** The rosy red, Anemone-like flowers turn pink with age. Rich dark foliage. Vigorous grower, reaching 15 ft. Hardy. F
4 in. pots.....\$1.25
- EUONYMUS Fortunei Carrierei.** A shrubby vine useful for foreground foundation planting or ground cover. Completely evergreen. M
10 to 12 in.....75c. | 12 to 15 in.....\$1.25 | 15 to 18 in.....\$1.75 | 18 to 24 in.....\$2.50
- E. Fortunei vegetus** (*Evergreen Bittersweet*). Low spreading shrub, but will climb high on masonry walls. M
12 to 15 in.....75c. each, \$7.50 per doz. | 15 to 18 in.....\$1.25 each
18 to 24 in. clumps.....\$2.00 each
- E. Fortunei radicans.** Smaller, more pointed leaves with white veins distinguish this form from the more rapid growing E. F. vegetus. S
10 to 12 in.....\$0.75 each | 12 to 15 in.....\$1.25 each
- HEDERA Helix** (*English Ivy*). The truly evergreen Ivy which so picturesquely covers many stone buildings. English Ivy will gracefully hang over a wall or may be planted at the base and trained up. A grand ground cover plant in mass under trees or other shady or semi-shady locations. M
3 in. pots.....40c. each, \$4.00 per doz. | 4 in. pots, heavy plants.75c. each, \$7.50 per doz.
- LONICERA japonica Halliana** (*Honeysuckle*). Semi-evergreen ground cover with fragrant yellow and white flowers. Indispensable for covering banks. Will hold soil in place and permanently cover barren areas. F
2 yr....35c. each, \$3.50 per doz., \$25.00 per 100
- PARTHENOCISSUS quinquefolia** (*Virginia Creeper*). Vigorous, handsome Woodbine—particularly striking with its autumnal coloring. Especially recommended for walls and fences. F
2 year.....75c. each, \$7.50 per doz.
- P. tricuspidata veitchii.** Closely clinging vine with medium sized foliage turning red in Autumn. Its rapid growth and closely clinging habit make it most popular for brick, stone or stucco walls. M
2 year.....90c. each, \$10.00 per doz.
- POLYGONUM Aubertii** (*Chinese Fleecevine*). Slender, vigorous vine for arbor, trellis, or fence. Curious silver-white flowers in tremendous profusion. F
2 year, field-grown.....90c. each, \$10.00 per doz. | 6 in. pots.....\$1.25 each
- WISTERIA sinensis** (*Chinese Wisteria*). Fragrant, lavender flowers in long, drooping clusters. Grafted plants only. The most reliable to bloom. White and purple. M
2 year.....\$1.75 each | 4 year.....\$2.75 each | 5 year.....\$4.00 each | XX Heavy.\$7.50 each

One of America's Most Beautiful Native Trees—White Flowering Dogwood (*Cornus florida*)

FLOWERING TREES

The loveliness of a Flowering Tree is a constant delight to the beholder. At the height of the blooming period; when in full leaf; when fruiting, as so many Flowering Trees do; and during the brilliance of Autumnal coloring, they are always an exceptionally fine addition to the landscape. A solid investment on the part of the homeowner, for they increase in beauty as the years pass.

All the varieties listed below are hardy and carefully chosen to give complete satisfaction, no matter whether planted as lawn specimens, or in the border, planted among evergreens or espaliered on bare wall surfaces. Although complete individual descriptions are given, we group some of these Flowering Trees in order to aid you in your planning and selection.

PLANTING BALLED AND BURLAPPED MATERIAL:

1. Dig hole wide and deep enough to easily admit the earth ball.
2. Set top of ball 2 inches below the surface of surrounding soil. Tamp in firmly without removing burlap.
3. Cut burlap open at top. Complete filling in soil. Water twice weekly very thoroughly.
4. Use Peat Moss liberally in the hole and as a top mulch.

FOR PLANTING BARE ROOT MATERIAL, PLEASE SEE DIRECTIONS ON PAGE 20 UNDER FLOWERING SHRUBS

COLORFUL FRUIT:

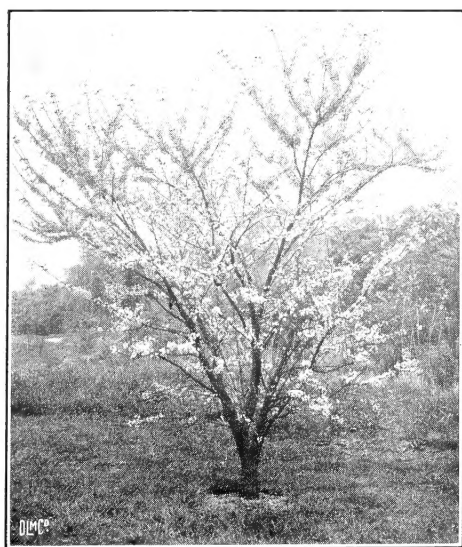

Malus..... *Flowering Crabs*, all varieties
Crataegus..... *Hawthorn*
Sorbus aucuparia..... *Mountainash*
Cornus..... *Flowering Dogwood*

SPREADING:

Cornus florida
Magnolia Soulangeana
Magnolia stellata
Malus Arnoldiana..... *Arnold Crab*
Malus atrosanguinea..... *Carmine Crab*
Malus floribunda
Malus Sargentii
Prunus subhirtella Beni Higan
Prunus serrulata pendula

UPRIGHT:

Crataegus Phaenopyrum..... *Washington Thorn*
Laburnum Watereri..... *Golden Chain*
Malus adstringens Hopa
Prunus Sieboldii Naden..... *Flowering Cherry*
Prunus Paul Wohlert..... *Flowering Cherry*

Redbud (*Cercis*)

Franklin Tree (*Franklinia alatamaha*)

FLOWERING TREES—Continued

All Flowering Trees Are Balled and Burlapped (B&B) Except as Marked Bare Root (B.R.)

CERCIS—Redbud or Judas-tree

C. canadensis. This is a large, shrub-like tree bearing myriads of brilliant purple-pink flowers in April before the leaves appear. A picturesque tree in form and a colorful delight in the early Spring landscape. Suitable in the shrub border or planted as a specimen. Best transplanted when young. We offer the following fine stock for early transplanting. M

5 to 6 ft., B.R. \$5.00 | 6 to 7 ft. \$8.50 | 7 to 8 ft. \$12.00
8 to 10 ft. \$17.50 | 10 to 12 ft. \$22.50

CORNUS—Dogwood

C. florida (White Dogwood). A native flowering tree attaining about 20 ft. in height at maturity and producing a wealth of single white flowers before the leaves appear. The foliage is deep green turning a brilliant red in Autumn. M

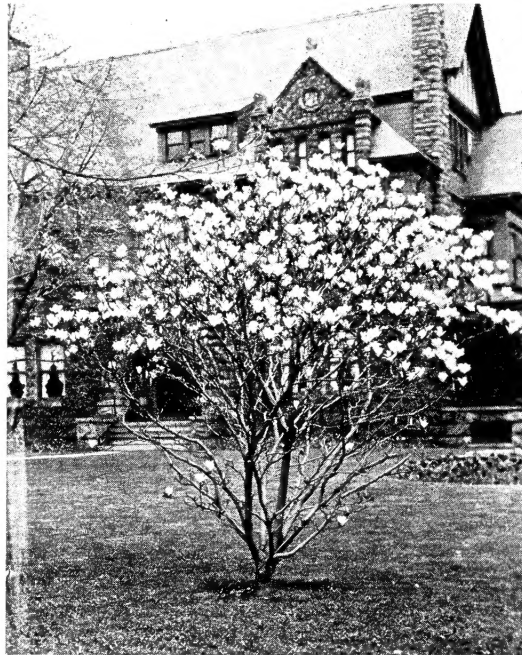

3 to 4 ft., B.R. \$4.00 | 7 to 8 ft. \$20.00
4 to 5 ft. 7.50 | 8 to 9 ft. 25.00
10 to 12 ft. 35.00
12 to 14 ft. \$65.00

C. florida rubra (Pink or Red Dogwood). Similar to our native White Dogwood in habit and form but with masses of pink flowers. Pink Dogwoods are extremely scarce and all sizes may not be available. M

2 to 3 ft. \$5.50 | 8 to 9 ft. \$30.00
3 to 4 ft. 8.00 | 9 to 10 ft. 35.00

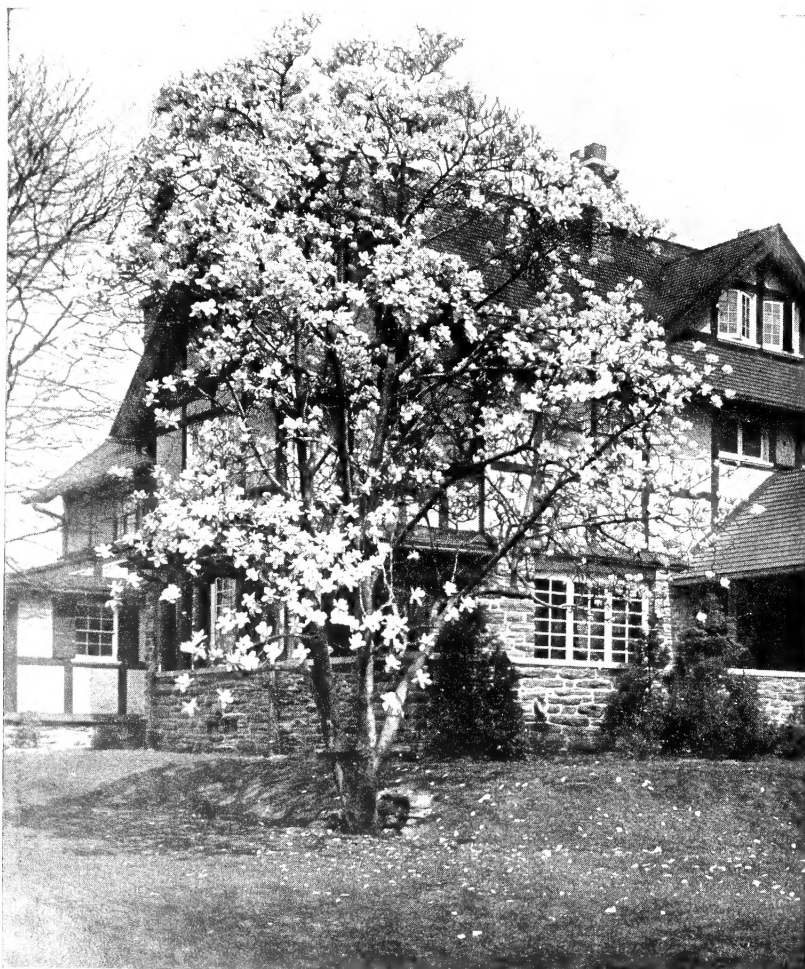

C. Kousa (Kousa Dogwood). White flowers borne after the leaves come out. Large, Strawberry-like crimson fruit. M

2 to 3 ft. \$4.00 | 6 to 7 ft. \$12.00
3 to 4 ft. 6.00 | 7 to 8 ft. 15.00
4 to 5 ft. 8.50 | 8 to 10 ft. 20.00
5 to 6 ft. 10.00 | 10 to 12 ft. 30.00

Star Magnolia (Magnolia stellata)

CRATAEGUS—Hawthorn

Saucer Magnolia (Magnolia Soulangeana)

C. Arnoldiana.

Bright crimson-fruited Hawthorn of medium size. Zigzag branches with stout spines. Interesting, upright shape. M

6 to 7 ft. \$10.00
7 to 8 ft. 15.00
8 to 10 ft. 25.00

C. Phaenopyrum

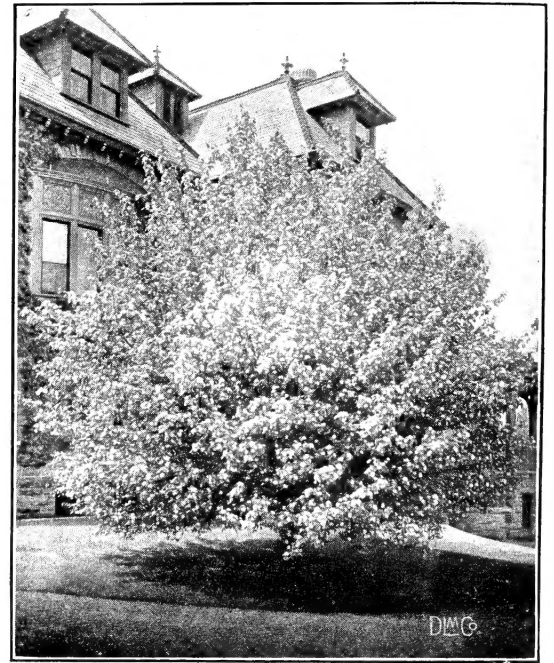

(Washington Thorn). Upright tree of medium size. Blooms are clustered white and fruit is brilliant red. Ideal hedge form or will make a fine specimen tree. M

3 to 4 ft. \$2.75
4 to 5 ft. 5.00
5 to 6 ft. 7.50
6 to 7 ft. 10.00
7 to 8 ft. 15.00
8 to 10 ft. 25.00

C. Oxyacantha

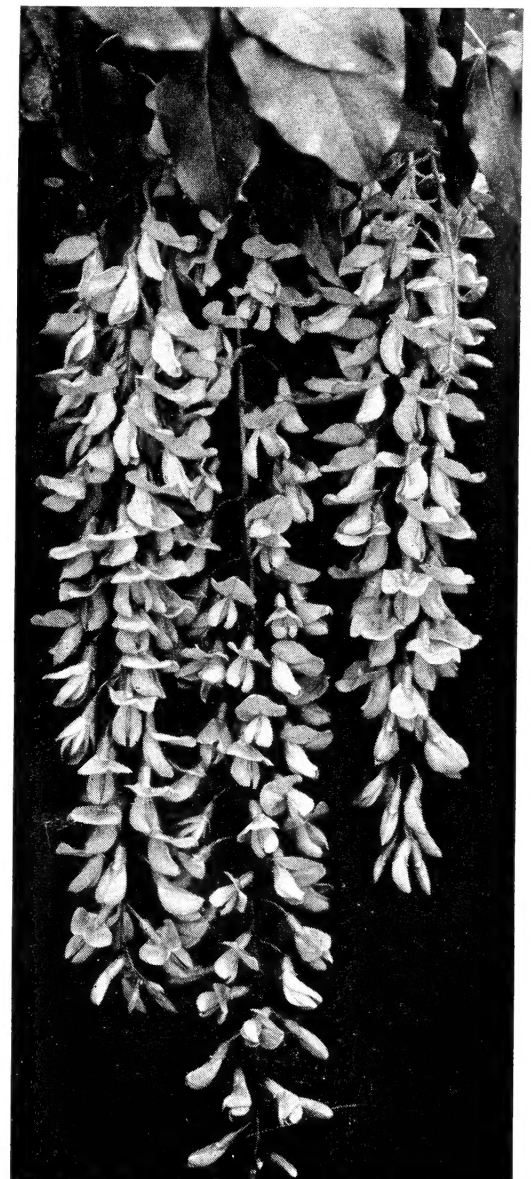

Double pink flowers. Late Spring bloomer. One of the finest. M

5 to 6 ft. \$7.50

Arnold Crab (Malus Arnoldiana)

Our FLOWERING TREES will be at the peak of bloom in May. Plan to visit the Nurseries

Laburnum Watereri

Sargent's Crab (*Malus Sargentii*)

FLOWERING TREES—Continued

FRANKLINIA—Franklin Tree

- F. alatomahia** (*Gordonia*). A small tree of extraordinary beauty in the Fall. Attaining 20 ft. in height, the graceful branches sweep the ground if allowed natural growth. If the lower branches are removed, the trunk appears smooth, silky and grey. The marble-like buds open about September 1 to large, creamy white flowers with deep, orange-yellow centers. While still flowering, the shiny green leaves take on the brilliant crimson and scarlet Fall coloring, a strikingly beautiful sight. The Franklin Tree prefers full sun and a somewhat moist but well-drained acid soil near lake, pool or stream. M
4 to 5 ft. \$6.00 | 5 to 6 ft. \$7.50

LABURNUM

- L. Watereri** (*Golden Chain*). Large, pendant golden flowers hang from the twigs like Wisteria. Appears to be more hardy than Laburnum vulgare. M
5 to 6 ft. \$7.50

MAGNOLIA

- M. Soulangeana** (*Saucer Magnolia*). Small, broad tree. Flowers large, cup-shaped, purplish outside, white at top, appear in early May before the leaves. M
2 to 3 ft. \$7.50 | 4 to 5 ft. \$15.00
3 to 4 ft. 10.00 | 5 to 6 ft. 18.00

SPECIAL OFFER. 2 to 3 ft. plants without flower buds but almost sure to bloom next year. \$4.75 each, 3 for \$12.50.

- M. Soulangeana Lennei.** An outstanding variety with very handsome, big, leathery leaves. Late blooms of deep purple, white inside. M
3 to 4 ft. \$12.00 | 4 to 5 ft. \$15.00
M. stellata (*Star Magnolia*). Small, broad, rounding habit, star-shaped flowers of pure dazzling white. Hardest and finest of all. S
2 to 3 ft. \$9.00 | 4 to 5 ft. \$25.00
3 to 4 ft. 15.00 | 5 to 6 ft. \$30.00-35.00

MALUS—Flowering Crab

It is difficult to adequately describe this most delightful group of Flowering Trees—such a wealth of color, fragrance and fruits do these afford. Also, no matter what habit of growth you might want—whether upright and regular; full, spreading and mounded; or interestingly irregular—there is a Flowering Crab to please you.

- M. Almey** (*Almey Crab*). An outstanding vigorous new Crab, Almey bears large blossoms of unfading glistening red with white markings at the petal base producing a star effect. *Selected by 1951 Herald-Tribune Plant Jury.* F
4 to 5 ft., B.R. \$3.75 | 5 to 6 ft., B.R. \$5.00
5 to 6 ft. \$7.50
M. adstringens Hopa. Erect, symmetrical leaves tinged purple. Flowers large, red, single; dark red fruit. The fruit of this variety is good for jelly and is most decorative of all varieties. F
5 to 6 ft., B.R. \$5.00 | 5 to 6 ft. \$7.50
M. Arnoldiana (*Arnold Crab*). Semi-double pink flowers opening to white. Yellow fruit. Makes a dense mound of shrub-like growth. M
4 to 5 ft., B.R. \$2.75 | 4 to 5 ft. \$6.00
6 to 7 ft. \$17.50

Flowering Plum (*Prunus C. Pissardi*)

MALUS—Continued

- M. atrosanguinea** (*Carminie Crab*). Single crimson flowers in great profusion. Low-headed tree, spreading habit with slightly twisted branches. M
4 to 5 ft., B.R. \$2.75 | 4 to 5 ft. \$9.00
3 to 4 ft. 6.00 | 5 to 6 ft. \$12.00-\$15.00
6 to 7 ft., heavy \$22.50
M. floribunda. A single rose pink variety bearing an abundance of fruit even when young, which is very attractive to birds; vigorous grower. M
4 to 5 ft., B.R. \$2.75 | 3 to 4 ft. \$6.00
5 to 6 ft. \$17.50-\$25.00
M. Halliana Parkmanii (*Parkman Crab*). A compact slow growing type bearing double deep pink flowers and darker in the bud. Reddish fruit. M
3 to 4 ft., B.R. \$2.75
M. huphensis (*Tea Crab*). Irregular, spreading top with zig-zag branches complete clothed with flowers. Buds red, opening to single pink flowers. Fruits dull red. Tree effect in bloom is Apple-like; in form vase-shaped. F
4 to 5 ft., B.R. \$2.75
M. ioensis plena (*Bechtel's Crab*). A vigorous, shapely tree with double pink flowers exactly like miniature Roses and of delightful rose-like fragrance. A very fine variety. S
3 to 4 ft., B.R. \$3.00 | 4 to 5 ft. \$7.50
4 to 5 ft., B.R. 5.00 | 5 to 6 ft. 10.00
M. Pink Weeper (*Pink Weeping Crab*). One of the very few truly weeping Crabs. Arching branches graced by cascades of bright pink flowers. S
4 to 5 ft. \$6.00
M. purpurea (*Purple-leaf Crab*). Brilliant foliage of rich reddish purple. Single, deep red flowers and red fruit in clusters. M
6 to 7 ft. \$12.00 | 8 to 10 ft. \$18.00
7 to 8 ft. 15.00 | 10 to 12 ft. 25.00

Malus floribunda

FLOWERING TREES—Continued

M. Sargentii (*Sargent's Crab*). A dwarf, bushy hardy variety. Sparkling white flowers and an abundance of small red fruit clinging till Spring. The best variety where a small tree is desired which will not overgrow. Ideal for garden border or background. S
3 to 4 ft., light, B.R.\$2.75 | 3 to 4 ft., heavy....\$7.50 \$10.00
4 to 5 ft.\$15.00

M. Scheideckeri (*Scheidecker's Crab*). Very early, double bright pink blossoms; bears waxy yellow fruit-like Cherries; distinctly upright, slender. M
4 to 5 ft., B.R.\$2.75 | 5 to 6 ft. \$9.00 | 6 to 7 ft. \$12.00

M. spectabilis (*Chinese Crab*). A shapely tree with good, shiny foliage, and fragrant, semi-double, delicate pink flowers. Pale yellow fruit. M
4 to 5 ft., B.R. \$2.75 | 4 to 5 ft.\$5.00 | 6 to 7 ft. \$12.00

OXYDENDRUM

O. arboreum (*Sorrel Tree*). A comparatively dwarf tree bearing an abundance of white flowers in Midsummer. The foliage turns several shades of red and crimson in Fall. Seldom seen in the Fall without being admired. M
3 to 4 ft.\$5.00 | 5 to 6 ft.\$9.00
4 to 5 ft. 7.50 | 6 to 7 ft. 12.00

PRUNUS—Flowering Cherries

These are the Oriental Cherries which are so famous in Washington. They are easily grown and will produce the almost phenomenal display in Spring which so many journey to Washington to see.

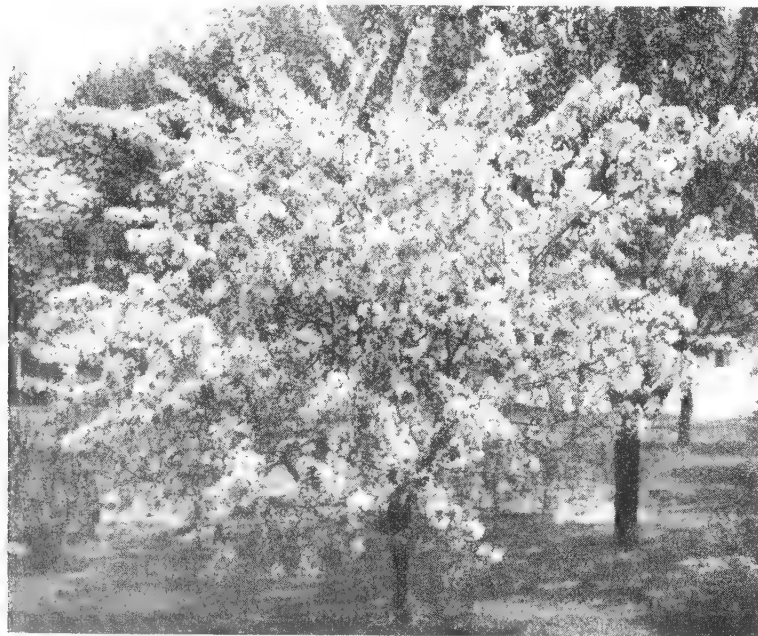

P. serrulata Amanogawa. A slender erect tree to 25 ft. with deep pink buds opening to light pink flowers in stiff clusters. Excellent with evergreen background. M
4 to 5 ft., B.R.\$5.00

P. serrulata Kwanzan. Outstanding in the double pink Flowering Cherries. Flower buds are rose-red opening to clear pink "puffs" over 2 in. across. A large tree with wide spreading branches. M
4 to 5 ft., B.R.\$5.00

P. serrulata Shirofugen. Double flowers, pink in the bud but opening white. An old favorite. M
5 to 6 ft., B.R.\$7.50

P. Sieboldii Naden. A double, deep pink variety of upright growth. F
6 to 7 ft.\$12.00

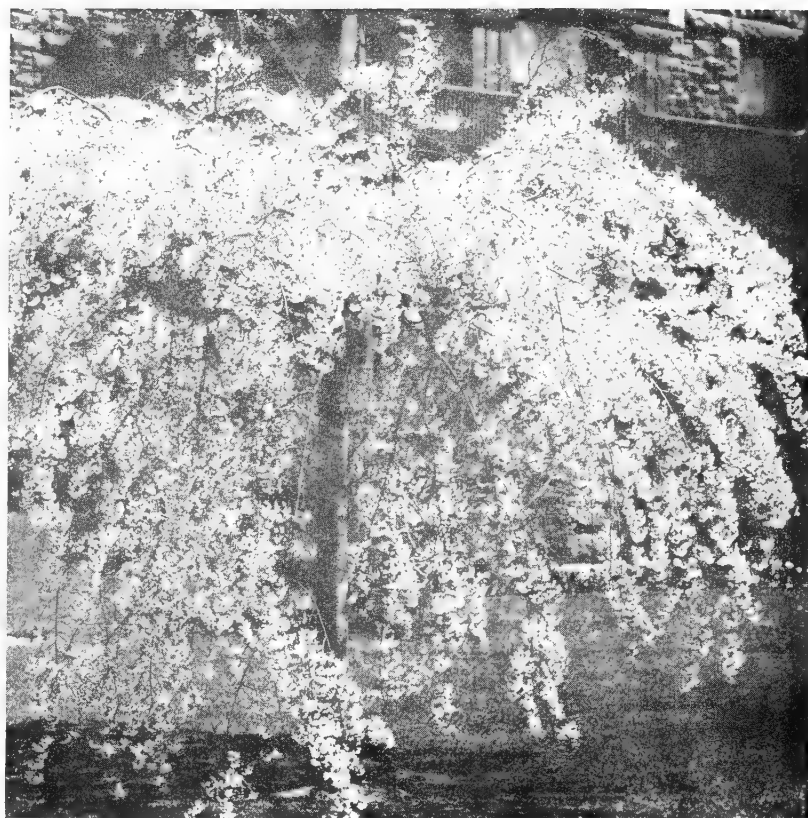

P. subhirtella Beni Higan. A small, upright tree with gay, bright pink, single blooms. F
5 to 6 ft.\$9.00 | 8 to 10 ft.\$25.00-\$35.00

Flowering Cherry (Prunus Beni Higan)

WEeping CHERRIES

P. subhirtella pendula (*Weeping Japanese Cherries*). A pendulous form the well-known Flowering Cherries so admired at Washington, D. C. Light pink flowers in great profusion in early Spring. S
6 ft. stems.\$10.00
8 ft. stems. 12.50

Weeping Cherry (Prunus subhirtella pendula)

FLOWERING PLUM

Prunus cerasifera Pissardii (*Purple-leaved Plum*). A lovely, small flowering tree with purple foliage and the daintiest pink blossoms. A delightful addition to the landscape. F
5 to 6 ft.\$5.00 | 6 to 7 ft.\$7.50

SORBUS—Mountainash

S. Aucuparia (*European Mountainash*). Well-formed tree with small leaves and bearing large clusters of orange red berries. M
5 to 6 ft., B.R.\$3.75
6 to 8 ft., B.R. 4.50
8 to 10 ft. 7.50
10 to 12 ft. 9.00
2 to 2½ in. cal.15.00
2½ to 3 in. cal.22.50

WISTERIA—Tree Form

W. sinensis, Tree Form. The loveliest sight imaginable is a Tree Wisteria in May in full bloom. Racemes of purple-blue flowers so cover the pendulous branches as to transform the head of the tree into a cloud of delicate coloring. A charming addition to every garden but a necessity in the formal one. It grows in beauty as it ages. Wisterias prefer sunny locations and severe pruning enhances blooming. To assure your having blooms, we offer only grafted stock. M
5 to 6 ft.\$12.00 | 6 to 8 ft.\$15.00

BROADLEAF EVERGREENS

EVERGREEN SHRUBS

This group of "double-duty" plants—having both evergreen qualities and bearing the most beautiful flowers—offers the wise buyer more satisfaction during all seasons of the year than any other single group of plants.

Increasing numbers of these Evergreen Shrubs are used each year to provide colorful as well as evergreen effects in the well-planned landscape planting. This applies not only to the flowers borne but also to brilliant color changes in the foliage as occurs with *Leucothoe* and many others in the Fall.

We have an unusually fine selection of these native American plants and to assist you in a general way we make the following suggestions as to their usage. However, we cannot stress too strongly that these are merely *suggestions* and not their sole uses—nor are all materials usable in these ways included in this short list.

FOR FULL SHADE

<i>Rhododendron maximum</i>	<i>Rosebay</i>
<i>Kalmia latifolia</i>	<i>Mountain Laurel</i>
<i>Ilex glabra</i>	<i>Inkberry</i>
<i>Leucothoe catesbaei</i>	<i>Drooping Leucothoe</i>

FOR PARTIAL SHADE:

<i>Azaleas</i>	Varieties
<i>Abelia grandiflora</i> <i>Glossy Abelia</i>	<i>Rhododendron catawbiense</i>

FOR FULL SUN:

<i>Cotoneaster</i> —Varieties	<i>Ilex opaca</i> —The "Christmas" Holly
<i>Ilex crenata convexa</i>	<i>Daphne cneorum</i>

SPREADING VARIETIES (Low growing and growing as much or more horizontally as vertically):

<i>Abelia grandiflora</i>	<i>Cotoneaster horizontalis</i>
<i>Azalea hinodegiri</i>	<i>Daphne cneorum</i>
<i>Azalea kurume, Snow</i>	<i>Ilex crenata convexa</i>
<i>Cotoneaster apiculata</i>	<i>Pieris floribunda</i>

HEDGES:

<i>Berberis julianae</i>	<i>Ilex crenata convexa</i>	<i>Ilex crenata rotundifolia</i>
<i>Ilex crenata</i>	<i>Pieris japonica</i>	

As a general guide to planting these balled and burlapped plants we suggest that you:

1. Dig hole wide and deep enough to easily admit the earth ball.
2. Set top of ball 2 inches below the surface of surrounding soil. Tamp in firmly without removing burlap.
3. Cut burlap open at top. Complete filling in soil. Water twice weekly very thoroughly.
4. Use Peat Moss liberally in the hole and as a top mulch.

Our analysis of sales records shows that the greatest gain in popularity of plant materials has been in the use of Broadleaved Evergreens. These Evergreen Shrubs are in increasing demand for beautifying the small as well as the large home grounds. If you want a modern planting, don't overlook the possibilities of these Flowering Evergreens.

EVERGREEN SHRUBS—Continued

All Evergreen Shrubs (Broadleaved Evergreens) Are B&B

ABELIA

Abelia grandiflora (*Glossy Abelia*). A splendid half evergreen shrub bearing dainty, bell-shaped pink flowers from July until frost. The glossy foliage will persist all Winter in a protected spot. M
2 to 3 ft. \$3.00 | 3 to 4 ft. \$4.00

AZALEAS*

*L. H. Bailey in his "Manual of Cultivated Plants," 1949, lists all the Azaleas as "Rhododendron." Because of usage we shall continue to list as Azaleas in order to distinguish from the larger-leaved Rhododendrons.

Azalea amoena (*Evergreen*). Small, boxlike leaves on a neat, compact plant of rounded form. Leaves warm bronze hue in Winter. Covered with rosy purple flowers in Spring. Very hardy. S Large Specimens Only:
8 to 10 in. \$1.75 | 4½ to 5 ft. spread. \$35.00 each
12 to 15 in. 4.00 | 5 to 6 ft. spread. 45.00 each

Azalea hinodegiri (*Evergreen*). Probably the best of the Evergreen Azaleas for color, foliage and form. A low, compact plant with handsome, waxy foliage which turns bronze in Winter. The flowers are clear fine red, borne in great profusion in May. Splendid for facing Laurel and Rhododendron as mass planting. This stock is thick and compact, and loaded with flower buds. May need some Winter protection in exposed locations or north of the nurseries. S
8 to 10 in. \$1.75 | 12 to 15 in. \$4.00
10 to 12 in. 2.50 | 15 to 18 in. 5.00

Azalea hinonoyo (*Evergreen*). Similar to Hinodegiri in form and foliage but with soft clear pink flowers in May. S
12 to 15 in. \$4.00

Azalea calendulacea

Azalea kurume, Pink Progress. A hardy form of upright habit with clear pink flowers. 15 to 18 in. \$5.50

Azalea kurume, Red Progress. Faster growing than Hinodegiri with similar habit and large flowers of translucent red. 15 to 18 in. \$5.50

Azalea kurume, Salmon Beauty. An evergreen type producing tremendous quantities of bright salmon flowers of the double or "hose in hose" form. 12 to 15 in. \$4.00

Azalea kurume, Snow (*Evergreen*). Purest white, glistening flowers are borne profusely in clusters. Handsome, glossy green foliage. An excellent variety for accenting your other plantings, whether used singly or in groups. Low growing. F 12 to 15 in. \$4.00

Azalea macrantha (*Evergreen*). An outstanding evergreen type with delightful single, salmon-pink flowers a month later than most Azaleas. S 8 to 10 in. \$2.00

Azalea poukhanense (*Half Evergreen*). A broad plant of finest form with delicate lavender buds opening to extremely large, delightful pink blooms; sweetly scented. Growth is modest and it is positively hardy, almost never losing a flower bud. We cannot recommend Azalea poukhanense too highly. Our stock is large and well grown. M
10 to 12 in. \$2.50 | 2 to 2½ ft. \$6.00 | 4 to 5 ft. \$25.00

DECIDUOUS AZALEAS

For convenience we list here other varieties of Azaleas which are not evergreen but which are just as beautiful and useful. They are slightly more hardy than evergreen types and combine splendidly with Laurels and Rhododendrons, relieving the heavy, solid foliage of the Rhododendrons with the lighter, more delicate, deciduous foliage.

Azalea arborescens. This is one of the few really hardy white forms. Blooms are quite large and occasionally tinged pink. Blooms late usually mid-June, and the blooms have a delightful fragrance. A most desirable variety for mass plantings of native material. M

15 to 18 in. \$3.25 | 2 to 2½ ft. \$5.00
18 to 24 in. 4.25 | 2½ to 3 ft. 7.50

Low-growing, Colorful Azaleas, in Foliage All Year, Are Ideal for Foundation Plantings

Azalea indica alba (*Half Evergreen*). Also called Snow Azalea. A fine combination with Hinodegiri, as the large white flowers appear at the same time. Grows slightly taller than most and is of purest white. S
10 to 12 in. \$2.50 | 15 to 18 in. \$4.75
12 to 15 in. 3.75 | 18 to 24 in. 6.00
2 to 2½ ft. \$10.00

Azalea kaempferi (*Torch Azalea*). Half Evergreen. Not completely evergreen, but usually retains much of its foliage during Winter. Will grow to considerable height. The great profusion of bloom ranges in color from fire-red to salmon pink in varying shades. M
2 to 2½ ft., upright. \$6.00

Named Hybrids

15 to 18 in. \$5.00

Atlanta. Soft purple flowers; good grower.

Carmen. Delicate rose-pink.

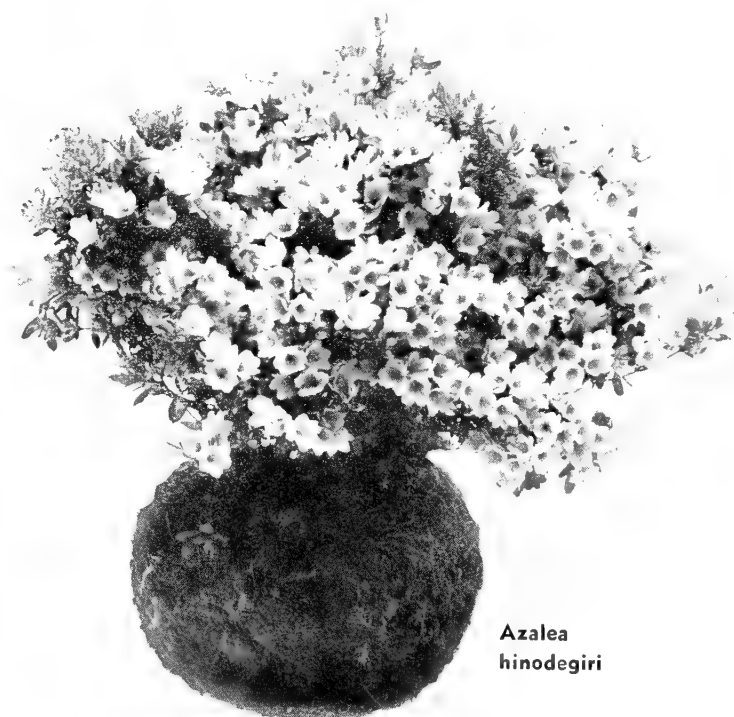

Fedora. Fine deep pink.

Kirishima. Large white flowers in May with pale scarlet center.

Azalea kurume, Bridesmaid. The glowing salmon-pink flowers are produced in large clusters. Small, glossy green foliage. M
18 to 24 in. \$7.50

Azalea kurume, Firefly (*Evergreen*). A full, compact grower bearing large, crimson-red flowers. Hardy in this area. M
18 to 24 in. \$7.50

Azalea kurume, Sherwoodi. An orchid shade of delightful color and a fine grower. Very hardy. M
12 to 15 in. \$4.00

Azalea hinodegiri

DECIDUOUS AZALEAS—Continued

- Azalea calendulacea** (*Flame Azalea*). A brilliant orange and yellow flowering native shrub. Tall but slow growing, free flowering. F
 15 to 18 in.\$2.75 | 2 to 2½ ft.\$5.00 | 3 to 4 ft.\$10.00
 18 to 24 in.3.75 | 2½ to 3 ft.7.00 | 4 to 5 ft.12.00
- Azalea mollis Hybrids** (*Chinese Azaleas*). A mass of large, bell-shaped flowers delicately shaded in orange and red tones on a low, compact shrub. The flowers, which appear before the leaves develop, are probably the largest of all the Azaleas and the profusion of blooms is unequalled. Likes plenty of sun and develops slowly. M
 12 to 15 in.\$2.75
- Azalea mucronulata**. A most worthwhile variety for planting in front of Forsythia. Blooms at same time and the color combination is most striking. Flowers are lavender-pink. F
 15 to 18 in.\$3.50 | 18 to 24 in.\$6.00 | 2 to 2½ ft.\$7.50 | 4½ to 5 ft.\$25.00
- Azalea nudiflora** (*Pinxterbloom*). Wild Honeysuckle. This lovely native is known to all who have tramped the woodlands in May. Fragrant pink. F
 18 to 24 in.\$2.75 | 2 to 3 ft.\$4.00 | 3 to 4 ft.\$6.00 | 4 to 5 ft.\$10.00
- Azalea nudiflora rosea** (*Downy Pinxter Azalea*) (*Deciduous*). Sometimes confused with *A. nudiflora* but is hardier and deeper in coloring. Very fragrant, rosy-pink flowers. Attains 9 or 10 ft. in height, but is usually seen about 3 ft. Prefers half-shade and grows in either acid or lime soil. F
 2 to 2½ ft.\$4.00 | 3 to 3½ ft.\$7.50 | 4 to 5 ft.\$15.00
 2½ to 3 ft.5.00 | 3½ to 4 ft.10.00
- Azalea vaseyi** (*Pinkshell Azalea*). Shell-pink flowers in May. Blossoms cover the entire plant and make a striking picture before foliage has developed. A most lovely type. F
 18 to 24 in.\$4.50 | 2½ to 3 ft. heavy.\$7.50 | 3½ to 4 ft.\$12.00
 2 to 2½ ft.6.00 | 3 to 3½ ft.10.00 | 4 to 5 ft.15.00
- Azalea viscosa** (*Swamp Azalea*). A slender, upright Azalea with heavily scented pink or white flowers in July well after the leaves appear. Thrives in moist places from Maine to South Carolina and attains 4 to 8 ft. in height. F
 2 to 3 ft.\$4.50 | 3 to 4 ft.\$7.50 | 4 to 5 ft.\$9.00

Berries of Cotoneaster

BERBERIS

- B. Julianae** (*Wintergreen Barberry*). Evergreen. Yellow flowers and purple fruit. Good ornamental for border, foundation or hedge. M
 15 to 18 in.\$3.50 | 2 to 2½ ft.\$6.00
 18 to 24 in.4.50 | 2½ to 3 ft.7.50
 3 to 4 ft.\$15.00
- B. verruculosa**. Dwarf evergreen Barberry with colorful glossy foliage. Very spiny and attractive all year. S
 10 to 12 in.\$2.75

DAPHNE

- D. Cneorum** (*Rose Daphne*). Rose Daphne is a dainty little bush 1 to 2 ft. high with gray green foliage, each shoot tipped with clusters of clear rose pink flowers in April and May and again in Autumn. The fragrance is delightful and so strong a few plants will scent a wide area. Likes plenty of lime in the soil. Must have full sun and loose soil which never becomes caked. S
 8 to 10 in.\$1.75 | 12 to 15 in.\$2.50
 15 to 18 in.\$3.50

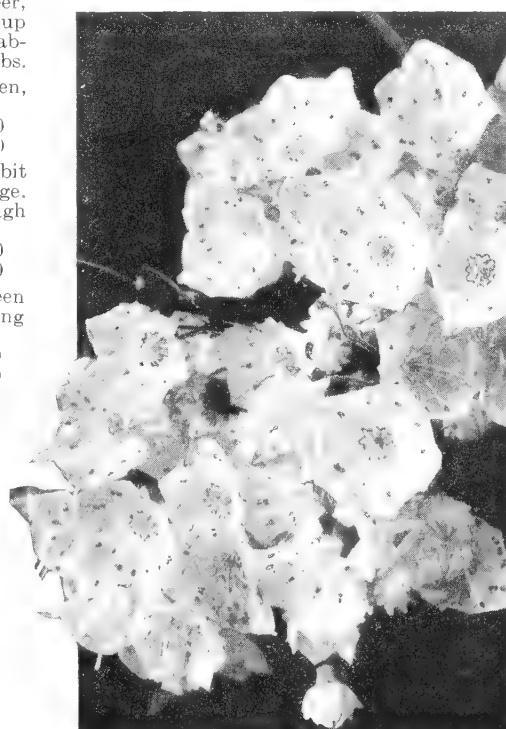

Boxleaf Holly (*Ilex convexa*)

ILEX—The Hollies

There is something startling about the sight of a full-grown Holly tree aglow with red berries. Our imaginations are stirred by this familiar species not only because of its association with Christmas spirit and cheer, but by its crisp, dominant, year-round personality. Only one of this group looks anything like the tree Christmas Holly. They differ greatly in habit and use but all are among the most desirable of evergreen shrubs.

- I. crenata**. A rapid growing, dense evergreen bush with deep green, boxwoodlike foliage. A permanent plant of real character. F
 18 to 24 in.\$6.00 | 3 to 3½ ft.\$15.00
 2½ to 3 ft.10.00 | 3½ to 4 ft.20.00
- I. crenata convexa** (*Boxleaf Holly*). Resembles dwarf Boxwood in habit and foliage. Usually grows broader than high with very glossy foliage. We recommend its wide use as it has a live, healthy look through the coldest weather. M
 12 to 15 in.\$3.50 | 15 to 18 in.\$4.75 | 18 to 24 in.\$6.00
 2 to 2½ ft.\$7.50 | 2½ to 3 ft.9.00
- I. crenata rotundifolia** (*Roundleaf Holly*). Compact, evergreen shrub with shiny green foliage and black berries. An outstanding variety which is real hardy in Westchester. M
 15 to 18 in.\$4.75 | 18 to 24 in.\$6.00 | 2 to 2½ ft.\$7.50
 2½ to 3 ft.9.00 | 3 to 3½ ft.15.00 | 3½ to 4 ft.20.00
- I. glabra** (*Inkberry*). A bushy, upright growing, very hardy shrub with dark, oval foliage, small flowers and an abundance of glossy black fruit in Fall; useful for shady and moist locations. M
 15 to 18 in.\$3.50
- I. opaca** (*American Holly*). The well known Christmas Holly, with red berries. Grows to a large tree but may be shared to a dense bush. Both male and female plants should be planted. We believe we have one of finest collections of American Holly available and all plants have been trained and transplanted frequently.
 2 to 3 ft.\$6.50 | 5 to 6 ft.\$18.00
 3 to 4 ft.9.50 | 6 to 7 ft.\$25.00 to 35.00
 4 to 5 ft.12.00 | 7 to 8 ft.35.00 to 45.00
 8 to 9 ft.\$45.00 to \$60.00

ILEX crenata, Green Island (Plant Pat. No. 817). An improved boxleaf Holly with broader foliage of deepest glossy green; hardy and dependable. Growth is moderate and form is low mounded. An ideal evergreen for modern planting. M
 12 to 15 in.\$3.50 | 18 to 24 in.\$6.25

Mountain Laurel (*Kalmia latifolia*)

BUXUS

- B. microphylla japonica** (*Japanese Boxwood*). The close growing habit, and small leaves of good green color, make this excellent for hedges and specimen planting. Stands shearing well. S
 8 to 10 in.\$1.00
- B. sempervirens, Newport Blue** (*Newport Blue Boxwood*). The blue-green color of new growth in the Summer distinguishes this larger growing and more hardy strain of common Boxwood interesting. S
 6 to 8 in.\$1.25
 18 to 24 in.5.00
 2 to 2½ ft., Pyramids.7.50
- B. sempervirens suffruticosa** (*True Dwarf Boxwood*). This rare old English Boxwood, sweetly fragrant, slow-growing, and compact, continues to be a great favorite. Ideal for edging or a formal hedge. S
 6 to 8 in.\$1.00

COTONEASTER

The large family of Cotoneasters has many members of high value for landscape plantings. Cotoneasters grown in an open situation generally prove to be hardy throughout northern United States. They vary greatly in habit and attractiveness and rely upon their brilliantly colored fruit more than floral beauty, for decorative effect. They do not transplant as readily as some shrubs and must be carefully handled during the transplanting operation. The generally interesting branching habit, both the low, sprawly types and those with arching branches are decorative all year.

- C. Franchetii**. Upright, dense shrub with wide spreading branches. Small pink flowers in June with a tremendous crop of orange berries in September; foliage grayish green. F
 15 to 18 in.\$2.50 | 2 to 3 ft.\$3.50
- C. Henryana**. A graceful shrub of drooping habit with reddish foliage. Bears an abundance of red-berried clusters in Fall. Fine for a slope.
 15 to 18 in., 5 in. pots.\$2.50
 18 to 24 in.5.00
- C. apiculata** (*Cranberry Cotoneaster*). Glossy red berries, larger than on any other Cotoneaster, mature early in the Fall to make this plant a standout among the prostrate types. S
 7 in. pots.\$2.75

The illustrations and prices are typical of our large and varied stock, but specific plants may not be available at all times. We reserve the right where necessary to change prices without notice and to charge for specimen plants according to their individual value.

EVERGREEN SHRUBS—Continued

PYRACANTHA

P. coccinea Lalandii (Firethorn). Semi-evergreen. Strong, slender branches rising from the ground develop stubby side growths upon which are hung the numerous orange-red berries. Amazingly beautiful in the Fall, especially when planted against a gray stone background. S

6 in. pots.....	\$2.25	3 to 4 ft.....	\$7.50
2 to 3 ft.....	6.00	4 to 5 ft.....	10.00

RHODODENDRONS

Rhododendrons require little care after they become established, except possibly some judicious pruning to keep them full and bushy and yet they yield the loveliest flowers in early June or late May. They grow best in a light, somewhat acid soil which is moist but well-drained. (They dislike "wet feet".) They do well in shade or partial sun and sometimes, unless protected in Winter, they may suffer some burning in windy areas.

R. carolinianum. A very early blooming variety, small and compact. Has handsome, dark green leaves and in May and June produces a profusion of soft rose pink bloom. A great favorite. S

15 to 18 in.....	\$3.50

RHODODENDRON
HYBRIDS

These well-budded plants are offered in an unusually select list of varieties, and it is through these named varieties or hybrids—that is, grafted stock—that the gorgeous array of colors in Rhododendrons in June are obtained. Hybrids are noted, too, for their superior foliage.

Our Hybrid Rhododendrons are the healthiest we have ever had and we offer only those varieties which are hardy in this area. M

B.....	18 to 24 in.	D.....	2½ to 3 ft.
C.....	2 to 2½ ft.	E.....	3 to 3½ ft.

Larger specimens are available and are priced on selection

Caractacus. A fine rich purple-crimson flower of well-known variety. Blooms late. BC

Catawbiense album. Large blush blooms changing to purest white. A hardy, compact variety. Late. B

Catawbiense Boursault. Lilac-purple. Exceptionally sturdy and well-shaped, growing somewhat bushy. Early to midseason. C

Catawbiense grandiflorum. Violet-rose, a real Rhododendron color. Exceptionally vigorous. A fine midseason variety. BCDE

Dr. H. C. Dresselhuys. Glittering crimson blooms of unusual size. One of best reds and one of the best hybrids. Midseason. BC

Dr. V. H. Rutgers. An unusual red, fringed variety—midseason. BC

Ignatius Sargent. Light clear red, exceptionally large trusses. Vigorous and rapid growing. Long a favorite. Late. BC

Lee's Dark Purple. Deep rich purple. Hardy, slower growing variety. Late. BCD

Mrs. P. den Ouden. A beautiful new red variety. Hardy. Midseason. BC

Nova Zembla. A very good red accented by handsome dark green foliage. A dense grower. BC

Prof. F. Bettex. A fine red. Hardy. Late. BC

Roseum elegans. A brilliant rose-pink. Handsome foliage. Vigorous and hardy—an altogether outstanding Hybrid. Midseason. BCD

Vanderbrocke. A crimson-red. Hardy. Late. BC

Vanderhoop. Carmine-rose. Hardy. Late. BCD

Vanweerden Poeiman. A red. Hardy. Late. BCD

Pieris Japonica

KALMIA
Mountain Laurel

K. latifolia (Mountain Laurel). The pink blooms of Mountain Laurel in June can hardly be matched by any other plant for profusion, delicate form or lasting quality. Most effective in group planting and must have acid soil. M

15 to 18 in....	\$2.75	2 to 2½ ft....	\$4.75
18 to 24 in....	3.50	2½ to 3 ft....	6.00
3 to 4 ft.....	\$9.00		

LEUCOTHOE

L. Catesbaei (Drooping Leucothoe). Most beautiful dwarf shrub for either shade or sun. White, bell-shaped flowers cover the drooping stems in early Spring. Prices are low for bushy plants. The Fall and Winter color of foliage is bronze to red and most decorative. Branches cut for floral arrangements last for weeks inside the home and the cutting improves the plant. M

15 to 18 in....	\$2.50	18 to 24 in....	\$4.00
-----------------	--------	-----------------	--------

PIERIS

P. japonica (Andromeda). Hardy Laurel-like leaved plant of unequalled value in a broadleaf planting. Glossy leaves of various shades with lovely sprays of Lily-of-the-valley-like clusters of white flowers in very early Spring. M

18 to 24 in....	\$5.00	2 to 2½ ft....	\$7.50
2½ ft. heavy.....	\$9.00		

P. floribunda (American Andromeda). Foliage similar in size and pattern to *P. japonica* but flowers differ, growing in showy, upright clusters rather than drooping. Very much in demand for its habit of lateral growth into a handsome mound of rich green retained throughout the Winter. M

12 to 15 in....	\$3.75	15 to 18 in....	\$5.50

Pachysandra

GROUND COVERS

GROUND COVERS:

Lonicera japonica Halliana	<i>Honeysuckle</i>
Pachysandra terminalis	<i>Japanese Spurge</i>
Vinca minor	<i>Myrtle</i>
See Roses for Trailing Varieties	

LONICERA japonica Halliana (*Honeysuckle*). Semi-evergreen ground cover, with fragrant yellow and white flowers. Indispensable for covering banks. Will hold soil in place and permanently cover barren areas. F
2 year.....35c. each, \$3.50 per doz., \$25.00 per 100

PACHYSANDRA terminalis (*Japanese Spurge*). Most popular evergreen ground cover plant; spreads rapidly and gives the finishing touch to a planting of conifers. Grows in shade where grass will not thrive. Use plenty of humus in soil and plant closely. M
Rooted Cuttings
\$5.00 per 100, \$45.00 per 1000

2½ in. pots.....\$15.00 per 100

VINCA minor (*Myrtle*). Dense evergreen ground cover. Small, dark, green leaves on slender trailing branches. Blue flowers on late Spring. M

2 yr. field-grown. \$2.50 per doz., \$20.00 per 100

V. minor, Bowles Var. Similar to V. minor in form and evergreen habit of growth. Lavender-blue flowers all Summer. S

2 yr. field-grown. \$4.50 per doz., \$35.00 per 100

A Portion of a Block of Taxus—A Rosedale Specialty

EVERGREENS (Conifers)

Evergreens present you with a most adaptable group of plants, suitable for a variety of uses, and we mention a few of these uses below to help you plan your planting.

We take particular pride in the quality of our Evergreens—in their vigor, shape and expert balling and burlapping (B&B). These factors make for safe, easy transplanting and quicker re-establishment in a new location. Frequent transplanting here in the nursery develops strong root systems and is one of the behind-the-scenes operations that makes our evergreens superior.

Always remember that careful and wise pruning will keep your plants and trees pretty much as you want them. An excellent example is the Hemlocks—one of the most popular of all trees for Evergreen hedges for maintaining fullness and controlled height—yet if allowed to grow unpruned, it will in time, reach a height of 70 to 100 feet.

Keteleer Juniper (*Juniperus chinensis Keteleeri*)

PLANTING: As a general guide to planting B&B plants we suggest that you:

1. Dig hole wide and deep enough to easily admit the earth ball.
2. Set the top of ball 2 inches below the surface of surrounding soil. Tamp in firmly without removing burlap.
3. Cut burlap open at top. Complete filling in soil. Water twice weekly very thoroughly.
4. Use Peat Moss liberally in the hole and as a top mulch.

To aid you in selecting material most suitable to your needs, we make the following list of suggestions—although some of our plant materials are omitted from the classifications for the sake of brevity.

UPRIGHT:

Conical in Shape:

Hemlock.....*Tsuga canadensis*
Norway Spruce.....*Picea Abies*
Douglas Fir.....*Pseudotsuga taxifolia*
Upright Yew.....*Taxus cuspidata*, Capitata Form
White Pine.....*Pinus Strobus*

Columnar or Pyramidal:

Silver Cedar.....*Juniperus v. Burkii*
Slender Juniper.....*Juniperus communis hispanica*

Pyramidal Arborvitae

Thuja occidentalis pyramidalis

Hicks Yew.....*Taxus m. Hicksii*

Columnar Yew.....*Taxus c. columnaris*

Hatfield Yew.....*Taxus m. Hatfieldii*

SPREADING:

Pfitzer Juniper.....*Juniperus c. Pfitzeriana*

Dwarf Mugho Pine....*Pinus Mugo Mughus*

Spreading Japanese Yew...*Taxus cuspidata*

Spreading English Yew

Taxus baccata repandens

Dwarf Japanese Yew.....*Taxus cuspidata nana*

FOR HEDGES:

Hemlock.....*Tsuga canadensis*

Taxus densiformis....*Taxus m. Hicksii*

Taxus m. Brownii *Thuja occidentalis*

Taxus m. Hatfieldii

FOR SHADY SPOTS:

Hemlock.....*Tsuga canadensis*

Taxus.....Varieties of

SPECIMEN, or PICTURESQUE:

Oriental White Pine.....*Pinus parviflora glauca*

Pfitzer's Juniper (*Juniperus Pfitzeriana*)

All Evergreens Are Balled and Burlapped (B&B)

JUNIPERUS—Juniper

All the Junipers are valuable ornamental plants—the upright species as single specimens or in groups and the low forms well adapted for rockery, slopes or banks. Junipers thrive best in a sandy, loam soil in sunny, open situations.

J. chinensis columnaris. Fast growing, slender tapering spire. Best substitute for our native Cedar. Hardy, light green, effective Evergreen. F
5 to 6 ft. \$12.00 | 6 to 7 ft. \$15.00

J. chinensis Keteleeri (*Keteleer Juniper*). Named for a landscape architect in Paris. This comparatively new variety is never attacked by aphid or blight. It grows in pyramidal form and is of very pleasing, light green color which it maintains during Winter. M
2½ to 3 ft. \$4.50 | 3 to 3½ ft. \$6.00 | 3½ to 4 ft. \$7.50
4 to 5 ft. \$10.00 | 5 to 6 ft. \$15.00

J. chinensis Pfitzeriana (*Pfitzer's Spreading Juniper*). A handsome spreading form, slightly larger than most other spreading types. It has gray-green, plume-like foliage and is extremely useful as a filler in foundation or border planting. Hardy and indifferent to drought. M
18 to 24 in. \$4.50 | 2 to 2½ ft. \$6.00 | 2½ to 3 ft. \$8.00 | 3 to 3½ ft. \$10.00
3½ to 4 ft. \$15.00 | 4 to 5 ft. \$17.50 | 5 to 6 ft. \$25.00

J. chinensis Pfitzeriana compacta glauca. A dwarf type of compact habit and blue-gray foliage. Excellent for banks, rock gardens, or where low-growing, spready plants are required. S 15 to 18 in. \$4.75

J. chinensis Pfitzeriana nana. Distinctly dwarf and very compact. A little lighter green than the larger growing Pfitzer. Also excellent for same locations as "glauca." S 15 to 18 in. \$6.00

J. chinensis Pfitzeriana Hetzi. A more rapid-growing type than the true Pfitzer, and stands shearing well. Intense blue-gray foliage. May be used for both formal and informal plantings with good effect. 18 to 24 in. \$6.50

J. chinensis pyramidalis (*Greek Juniper*). Slow-growing and of upright, columnar habit; the restful gray-green foliage makes it additionally useful as a color accent. S
2½ to 3 ft. \$7.50 | 3 to 4 ft. \$9.00 | 4 to 4½ ft. \$12.00

J. chinensis Sargentii. A low, trailing form with deep green foliage. Best Juniper for rock gardens. S
12 to 15 in. \$4.00 | 15 to 18 in. \$5.00 | 18 to 24 in. \$6.00 | 2 to 2½ ft. \$7.50

J. communis hispanica. A narrow, columnar, blue green type. Attains about 7 to 8 ft. in height and is a great favorite for accent points in the garden. S
3½ to 4 ft. \$7.50 | 4 to 4½ ft. \$9.00

J. horizontalis plumosa. A dwarf, low-spreading form with plummy foliage fanning out from the center. This Juniper offers the most interesting color changes of all the Junipers—green in the Spring; gray-green in the Summer changing to myriads of heather tones in the Winter. S
2 to 2½ ft. \$6.00 | 2½ to 3 ft. \$7.50

J. virginiana Burkii. A distinct, silver Cedar worthy of more attention. Uniform, upright growth of soft foliage. M
5 to 6 ft. \$12.00 | 6 to 7 ft. \$15.00

J. virginiana Canaertii. An aristocrat of Cedars. Upright, blackest green tree, bearing quantities of the most ornamental blue berries. M
5 to 6 ft. \$12.00 | 6 to 7 ft. \$15.00

PICEA—Spruce

No group of Evergreens is more widely used in landscape work than the Spruces and many of them are among the most showy and rapid growing of their class. Spruces will grow in almost any kind of moderately moist soil and are easily transplanted.

Recommended for lawn specimens, screen, or border.

P. Abies (*Norway Spruce*). Rapid growing Christmas tree type attaining great size. Useful for wind-break or individual specimen. F
5 to 6 ft. \$12.00 | 6 to 7 ft. \$16.00 | 7 to 8 ft. \$25.00

P. Omorika (*Serbian Spruce*). Dense pyramid, attaining great size slowly. Needles are dark green above and silvery underneath and branches sweep out in arcs. Hardy and reliable. M
5 to 6 ft. \$20.00 | 6 to 7 ft. \$25.00

PINUS—Pine

The Pines are essentially inhabitants of poor, sandy soils and dry situations. Their stout root systems enable them to seek scanty water supplies where other species find it difficult, and they thrive in any good soil.

P. Cembra (*Swiss Stone Pine*). Hardy dark green foliage. Tree symmetrical, slow growing and compact. A very handsome lawn specimen narrowly pyramidal. S
3 to 4 ft. \$12.00 | 4 to 5 ft. \$15.00

P. Mugo Mughus (*Dwarf Mugho Pine*). Low mounded Pine with short, stubby needles. Slow in growth, attaining greater spread than height. S
12 to 15 in. \$4.00

White Pines (*Pinus Strobus*) Growing at Rosedale

Norway Spruce (*Picea Abies*)

EVERGREENS (Conifers)—Continued

PINUS—Continued

- Pinus nigra** (*Austrian or Black Pine*). This flourishes near the seacoast and on high, bleak hills or in cities where smoke and dust would prohibit the use of many other Evergreens. F 3 to 4 ft., very heavy.....\$10.00 | 4 to 5 ft., very heavy.....\$12.50
- P. parviflora glauca** (*Oriental White Pine*). A hardy tree of irregular growth with bluish green needles in tufts at the ends of branches. Very picturesque. M 5 to 6 ft.....\$12.00 | 6 to 7 ft.....\$15.00 | 7 to 8 ft.....\$18.00
- P. Peuce** (*Macedonian Pine*). A very ornamental hardy Pine of regular, dense habit and slow growth; needles rich silvery green about 3 in. long. Resembles Swiss Stone Pine. M 5 to 6 ft.....\$12.00 | 6 to 7 ft.....\$16.00 | 7 to 8 ft.....\$20.00
- P. sylvestris** (*Scotch Pine*). A Pine of picturesque, windswept beauty and dense, blue-green foliage. Thrives in windy, dry locations. F 5 to 6 ft.....\$12.00 | 6 to 7 ft.....\$15.00 | 7 to 8 ft.....\$18.00
- P. Strobus** (*White or Weymouth Pine*). This is beautiful in every stage of its growth, from a seedling to a stately tree of 150 ft. No other evergreen fulfills so well the requirements for rapid growth and none transplants more easily. F 2 to 3 ft.....\$3.75 | 5 to 6 ft.....\$12.00 | 9 to 10 ft.....\$35.00
3 to 4 ft.....5.00 | 6 to 7 ft.....15.00 | 10 to 12 ft.....50.00
4 to 5 ft.....8.50 | 7 to 8 ft.....20.00 | 12 to 14 ft.....60.00
8 to 9 ft.....27.50

PSEUDOTSUGA

- P. taxifolia** (*Douglas Fir*). This handsome tree has gray-green foliage, is very hardy and extremely ornamental at all stages of growth. Its hardiness and beauty would be difficult to overrate. Thrives in Canada and will endure both drought and cold. Some specimens are rich deep green, others almost as blue as Blue Spruce. Douglas Fir does extremely well with us and believe we have superior stock to offer. F 2 to 3 ft.....\$5.50 | 4 to 5 ft.....\$9.00 | 6 to 7 ft.....\$18.00
3 to 4 ft.....7.50 | 5 to 6 ft.....12.00 | 7 to 8 ft.....20.00

THUJA—Arborvitae

Ornamental evergreen trees of narrow pyramidal habit. They are favorites for formal gardens because of their regular, symmetrical habit. Adapted for hedges and windbreaks. Thrive best in a moist, loamy soil.

- T. occidentalis** (*American Arborvitae*). Beautiful native tree, commonly known as White Cedar. Especially useful for hedges and screens. M 3 to 4 ft.\$5.00 | 4 to 5 ft.\$6.50 | 5 to 6 ft.\$9.00 | 6 to 7 ft.\$12.00 | 7 to 8 ft.\$16.00
- T. occidentalis Boothii** (*Booth Globe Arborvitae*). Dense, globe-shaped variety which maintains its shape without shearing; foliage is a pleasing seagreen in Summer; in Winter, bronze; perfectly hardy; grows about 3 ft. high. S 12 to 15 in.....\$2.00 | 2 to 2½ ft.....\$5.00
- T. occidentalis nigra** (*Dark American Arborvitae*). An upright variety maintains a dark, rich green. M 18 to 24 in.....\$3.00 | 3 to 4 ft.....\$6.00 | 6 to 7 ft.....\$14.00
2 to 3 ft.....4.50 | 4 to 5 ft.....7.50 | 7 to 8 ft.....17.50
5 to 6 ft.....10.00
- T. occidentalis pyramidalis** (*Pyramidal Arborvitae*). The deep green color and upright pyramidal form of this species renders it conspicuous in contrast with other evergreens. It is very hardy and vigorous. We recommend this Arborvitae for an evergreen hedge. M 18 to 24 in.....\$3.00 | 4 to 5 ft.....\$8.00 | 7 to 8 ft.....\$14.00
2 to 3 ft.....4.50 | 5 to 6 ft.....10.00 | 8 to 9 ft.....16.00
3 to 4 ft.....6.50 | 6 to 7 ft.....12.00

Luxuriant Hemlocks Growing at Rosedale

- Thuja occidentalis robusta** (*Ware or Siberian Arborvitae*). A sturdy variety of broad, pyramidal form upon maturity. Gray-green foliage. Dense, rugged grower of slow habit. M 4 to 5 ft.....\$9.00
- T. occidentalis Rosenthalii** (*Rosenthal Arborvitae*). A rugged, columnar tree of slower growing habit than other Arborvitae. Very hardy with especially fine foliage during the Winter. M 4 to 5 ft.....\$10.00 | 5 to 6 ft.....\$12.00
- T. occidentalis spiralis**. Compact tree with upright branches and short, close set branchlets clothed with beautiful, dark foliage. M 4 to 5 ft.....\$7.50 | 5 to 6 ft.....\$9.00
- T. orientalis Sieboldii** (*Golden Biota*). A neat, compact, dwarf plant of round, or egg shape with yellow to bronze foliage. Always retains its neat, compact form without training. S 18 to 24 in.....\$5.00
- T. orientalis elegantissima** (*Biota*). Slender, columnar form with bright, golden-tipped foliage in the Spring, green-gold in Summer. A strong accent during Winter, with dark golden bronze coloring. Hardest of Chinese Arborvitae. M 4 to 5 ft.....\$7.50 | 5 to 6 ft.....\$9.00

TSUGA—Hemlock

Hemlocks can be used in many different ways; as lawn specimens they attain great size and beauty; by shearing they may be used in foundation planting and kept from overgrowing for years and years; for border or screen they form a most naturalistic background. Hemlocks thrive in shade or full sun and are practically immune to insects and disease.

- T. canadensis** (*Canadian Hemlock*). A handsome, ornamental tree growing 70-100 ft. high; dark green foliage; hardy as far north as Canada. F 18 to 24 in.....\$4.50 | 5 to 6 ft.....\$15.00 | 9 ft., heavy.....\$40.00
2 to 3 ft.....6.00 | 6 to 7 ft.....20.00 | 9 to 10 ft.....50.00
3 to 4 ft.....8.50 | 7 to 8 ft.....25.00 | 10 to 12 ft.....75.00
4 to 5 ft.....11.00 | 8 to 9 ft.....35.00 | 12 to 14 ft.....100.00

Larger specimens priced upon selection

- T. canadensis pendula** (*Sargent's Weeping Hemlock*). Makes a tremendous mound of wavy outline many times broader than high, always well clothed and neat. Like all good things it develops slowly but becomes a real possession in your "personal" effects. Magnificent. S 3 to 3½ ft.....\$20.00 | 3½ to 4 ft.....\$25.00 | 4 to 4½ ft.....\$35.00
- T. caroliniana** (*Southern Hemlock*). Native of the mountains of the Southern States and perfectly hardy here in the North. A beautiful tree with dark green foliage and a habit of growth which makes it distinctly different from our Canadian Hemlock. M 2 to 3 ft.....\$7.50 | 4 to 5 ft.....\$14.00
3 to 4 ft.....10.00 | 5 to 6 ft.....18.00
- T. diversifolia** (*Japanese Hemlock*). Very dwarf, with crisp, dense foliage on reddish branches. Slowest growing of all our Hemlocks and will thrive in sun or partial shade. S 3½ to 4 ft.....\$15.00
- T. Sieboldii**. A very desirable dwarf Hemlock of pyramidal habit. Not commonly seen in this area. Entirely hardy. Shining green needles make this rival the Yew for fine home planting. 2 to 2½ ft.....\$7.50 | 2½ to 3 ft.....\$10.00 | 3 to 3½ ft.....\$12.50

Compact Douglas Fir Growing at Rosedale

EVERGREENS (Conifers)—Continued

TAXUS • Yew

The rich, dark green color, hardiness, freedom from ills and slow, rugged development make these the most popular of all needled Evergreens. They thrive best in a moderately sandy loam but will endure adverse soil conditions and shade.

The many varied shapes and types of growth—upright columnar, pyramidal, dwarf, spreading, drooping, to mention just a few—make Yews suitable for almost any landscape requirements. Among other uses they make the finest of all hedges. Yews stand heavy pruning well.

Our selection of Yews is very extensive, of finest quality. We offer these at new low prices.

T. baccata repandens (*Spreading English Yew*). This dwarf, spreading form with its beautiful foliage and graceful, drooping branches is unique. M
12 to 15 in. \$4.50 | 18 to 24 in. \$6.00
2 to 2½ ft. \$7.50

T. cuspidata (*Spreading Japanese Yew*). Dense, spreading habit. Deep green foliage. Especially useful near the house. Very hardy. M
15 to 18 in. \$4.50 | 3½ to 4 ft. \$20.00
18 to 24 in. 6.50 | 4 to 4½ ft. 25.00
2 to 2½ ft. 9.00 | 4½ to 5 ft. 30.00
2½ to 3 ft. 12.00 | 5 to 5½ ft. 35.00
3 to 3½ ft. 15.00 | 5½ to 6 ft. 45.00

T. cuspidata (*Capitate or Tree Form; Upright Japanese Yew*). Upright tree form of Cuspidata, very desirable for foundation planting. Best of evergreen hedges. M
15 to 18 in. \$4.75 | 3½ to 4 ft. \$18.00
18 to 24 in. 6.50 | 4 to 4½ ft. 22.50
2 to 2½ ft. 8.00 | 4½ to 5 ft. 27.50
2½ to 3 ft. 10.00 | 5 to 5½ ft. 35.00
3 to 3½ ft. 15.00 | 5½ to 6 ft. 45.00

A few large specimens priced on selection

T. cuspidata columnaris. A narrow, pyramidal form requiring a minimum of shearing. Dark green and very luxuriant. Fine for accent. M
3½ to 4 ft. \$18.00 | 4 to 4½ ft. \$22.50
4½ to 5 ft. \$25.00

T. cuspidata, Moon's Columnar (*Moon's Columnar Yew*). A generally upright variety usually having a spread very nearly equal to height. Its foliage is heavy and of deepest dark green. Hardy and slow in growth; highly recommended. S
2½ to 3 ft. \$15.00 | 3 to 3½ ft. \$17.50

T. cuspidata nana (*Dwarf Japanese Yew*). Dwarf, compact, very hardy; low spreading form. S
12 to 15 in. \$3.75 | 2 to 2½ ft. \$12.00
15 to 18 in. 5.00 | 2½ to 3 ft. 20.00
18 to 24 in. 8.00 | 3 to 3½ ft. 30.00

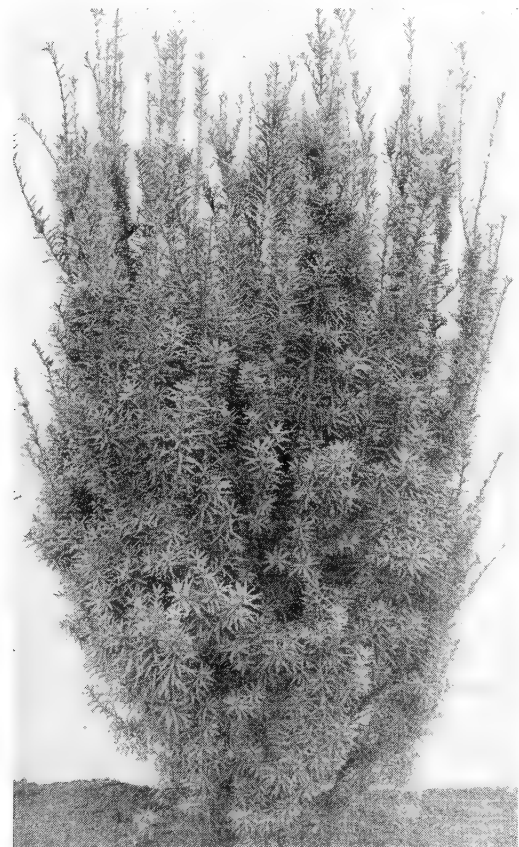

A few larger sizes priced on selection

Taxus Hatfield Spreader and **Taxus densiformis** are developments of Cuspidata and similar in shape. Same prices apply to these varieties. Come in and see them. M

T. media Brownii. This rounded, full-centered type of compact Yew is our very best type for hedges where medium height and considerable fullness is desired. Our stock this year is especially fine and we offer this as our best buy in Taxus. M
15 to 18 in. \$4.75
18 to 24 in. 5.50
2 to 2½ ft. 7.50
2½ to 3 ft. 10.00
3 to 3½ ft. 15.00

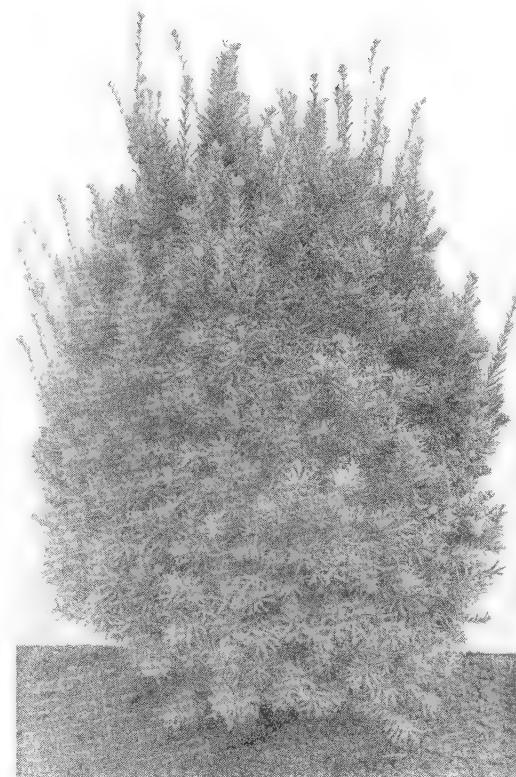

Taxus cuspidata (Capitate Form)

Taxus Hicksii

Taxus media Hatfieldii (*Hatfield Upright Yew*). Finest upright Yew. Holds its form almost without trimming. M
15 to 18 in. \$4.50
18 to 24 in. 5.50
2 to 2½ ft. 7.50
2½ to 3 ft. 10.00
3 to 3½ ft. 15.00
3½ to 4 ft. 17.50
Heavy specimens, 5 ft. 45.00

Taxus Hatfieldii

Taxus media Hicksii (*Hicks Yew*). Interesting form of this most useful family. Exceptionally dark green needles. Grows in an upright, columnar shape. Bears red berries profusely. M

2½ to 3 ft. \$10.00
3 to 3½ ft. 12.50
3½ to 4 ft. 15.00
4 to 4½ ft. 20.00
4½ to 5 ft. 25.00
5 to 5½ ft. 35.00
Heavy specimens, 4½ to 5½ ft. 45.00

T. media Vermeulen. A dense-growing, upright, mounded type of Yew. Slightly irregular in character it makes an interesting addition to the landscape planting, and its extremely slow growth makes it more valuable than Boxwood in this climate for entrance planting. S
3 to 3½ ft. \$17.50 to \$20.00

Taxus baccata repandens

Hydrangeas in Bloom at Mid-summer in the Nurseries

FLOWERING SHRUBS

Shrubs are vitally important in creating the pleasing and ever-changing effect in the home and garden landscape. A succession of blooms and foliage color changes marks the seasons with their varied pictures.

In beds or borders, as backgrounds or hedges, or in groups, Flowering Shrubs point to one of the most inexpensive ways of obtaining better landscaping. While if allowed to go uncared for, some Shrubs may get coarse and overgrown, this can be avoided easily by a little simple pruning.

A wise choice of Shrubs will bring you colorful blossoms throughout the entire growing season. We have taken particular pains in growing our stock to keep them well-spaced to encourage maximum development.

Butterflybush (Buddleja)

ALL FLOWERING SHRUBS ARE BARE ROOT EXCEPT WHERE INDICATED (B&B)

PLANTING BARE ROOT MATERIAL

1. Plant at once, digging hole deep and wide enough to admit roots completely spread out.
2. Loosen soil at bottom of hole and mix with a small amount of Driconure.
3. Place plant in hole the same depth as previously planted in nursery. (*Shows on trunk or main stem.*)
4. Cover roots with soil mixed with liberal amounts of Driconure, firming soil with feet.
5. Complete filling hole with soil, leaving catch basin effect at top to hold water.
6. Water thoroughly twice a week.

For planting B&B material, please see instructions on page 5.

SOME SUGGESTIONS FOR USING FLOWERING SHRUBS:

SHRUBS FOR DRY PLACES, ALSO FOR ADVERSE CITY CONDITIONS

<i>Acanthopanax Sieboldianus</i>	<i>Fiveleaf Aralia</i>
<i>Berberis Thunbergii</i>	<i>Japanese Barberry</i>
<i>Forsythia spectabilis</i>	<i>Golden Bell</i>
<i>Ligustrum</i> , in variety.....	<i>Privet</i>
<i>Rhodotypos tetrapetala</i>	<i>Jethead</i>
<i>Spiraea Vanhouttei</i>	<i>Bridalwreath</i>
<i>Symphoricarpos orbiculatus</i>	<i>Coralberry</i>
<i>Syringa vulgaris</i>	<i>Lilac</i>

SHRUBS FOR WET PLACES

<i>Amelanchier canadensis</i>	<i>Shadblow</i>
<i>Aronia arbutifolia</i>	<i>Red Chokeberry</i>
<i>Azalea viscosa</i>	<i>Swamp Azalea</i>
<i>Calycanthus floridus</i>	<i>Sweetshrub</i>
<i>Chionanthus virginica</i>	<i>White Fringe</i>
<i>Clethra alnifolia</i>	<i>Sweet Pepperbush</i>
<i>Enkianthus campanulatus</i>	<i>Redvein Enkianthus</i>
<i>Hypericum</i>	<i>St. Johnswort</i>
<i>Lindera Benzoin</i>	<i>Spicebush</i>
<i>Vaccinium corymbosum</i>	<i>Blueberry</i>
<i>Viburnum cassinoides</i>	<i>Withered</i>
<i>Viburnum dentatum</i>	<i>Arrowwood</i>
<i>Viburnum Opulus</i>	<i>Highbush Cranberry</i>

<i>Vitex Agnus-castus latifolia</i>	

ACANTHOPANAX Sieboldianus (*Aralia pentaphylla*). An attractive, prickly shrub of dense growth. The lovely, bright green leaves of tropical appearance make it desirable for a hedge, bank or slope planting. Thrives almost anywhere and will withstand city atmospheric conditions. M

4 to 5 ft..... \$2.50

AMELANCHIER canadensis. Small, graceful tree or large shrub of clumpy habit. Snowy flowers in early Spring and maroon fruit in June. F

2 to 3 ft..... \$1.25 | 3 to 4 ft..... \$2.00

Deutzia gracilis

Flowering Quince (*Chaenomeles lagenaria*)

ARONIA arbutifolia brilliantissima (*Brilliant Chokeberry*). Handsome red Autumn foliage on a shrub of modest, upright growth. Abundance of brilliant red berries, very attractive to birds. F

2 to 3 ft..... \$1.25 | 3 to 4 ft..... \$1.75

AZALEAS, Deciduous. While certain Azaleas are deciduous—that is, lose their leaves during the Winter—we feel that it is better to list all Azaleas together. Therefore both deciduous and evergreen types will be found under Broadleaved Evergreens.

BERBERIS mentorensis (Plant Pat. No. 99). A brand new variety of strong rugged, upright habit. More beautiful than Japanese Barberry. Able to withstand heat and drought. Foliage darkest green and holds late in Fall. Highly recommended. M

18 to 24 in. 90c. each, \$10.00 per 12 | 2 to 2½ ft. \$1.10 each, \$12.00 per 12
2½ to 3 ft..... \$1.50 each, \$16.00 per 12

B. Thunbergii (*Japanese Barberry*). Commonly used in hedges. Red berries in the Fall. M

15 to 18 in. 45c. each, \$35.00 per 100
18 to 24 in. 60c. each, \$45.00 per 100 | 2 to 2½ ft. \$1.00 each, \$90.00 per 100

B. Thunbergii atropurpurea (*Redleaf Barberry*). Very similar to B. Thunbergii except for the ever-colorful leaves which are bright red in the Spring; purple-red in the Summer and blazing scarlet in Fall. Also berries heavily. M

15 to 18 in..... 60c. each, \$45.00 per 100
2 to 3 ft..... \$1.50 | 3 to 4 ft..... \$3.50

BUDDLEJA Davidii, Empire Blue (Plant Pat. No. 557). We have seen no other blue Buddleja that compares with this. The color is an Aster blue with a delicate lilac tone.

2 yr..... \$0.90 | Potted 6 in. pots..... \$1.25

B. D. Pink Dawn. Abundant, truly pink blooms throughout Summer and Fall. Excellent for cutting, sprays often 2 to 3 ft. long. Compact plant. Deep green foliage.

2 yr..... \$0.90 | Potted 6 in. pots..... \$1.25

B. D. Royal Red (Plant Pat. No. 556). The first truly red Butterflybush. Fragrant, and fine for cutting. F

2 yr..... \$0.90 | Potted 6 in. pots..... \$1.25

B. D. White Bouquet. New, snow-white Buddleja with full sprays 10 to 15 in. in length. Handsome foliage.

Empire Blue Pink Dawn Royal Red White Bouquet

FLOWERING SHRUBS—Continued

White Rose of Sharon (*Hibiscus totus alba*)

CHIONANTHUS virginica (*White Fringetree*). One of the most striking native small trees or shrubs because of its handsome, glossy, Magnolia-like leaves, which turn a bright golden yellow in Autumn. Produces masses of loose panicles of feathery petaled snow-white flowers in Midsummer. F

2 to 3 ft.....\$2.00
3 to 4 ft..... 3.50

CLETHRA alnifolia (*Sweet Pepperbush*). An upright, slow-growing shrub with spikes of fragrant white flowers in late Summer. Fine for naturalizing S

18 to 24 in.....\$1.25
2 to 3 ft..... 1.75

COTINUS Coggygria (*Bronze Smoke Tree*). This bronze-leaved and bronze-plumed Smoke Tree is unusual and especially handsome. Growth is rapid attaining 12 to 20 ft. and attracts much favorable comment. F

3 to 4 ft.....\$2.00

DEUTZIA gracilis (*Slender Deutzia*). A dwarf variety with small, white flowers that completely cover it in May. S

12 to 15 in.....\$1.00
15 to 18 in..... 1.50
18 to 24 in..... 2.00

D. scabra plena. White flowers borne in July in great profusion. A handsome shrub of vigorous habit. Attains about 8 ft. in height. F

4 to 5 ft.....\$2.50
5 to 6 ft..... 4.00

ENKIANTHUS campanulatus (*Redvein Enkianthus*). Without artificial shaping, will develop into a handsome, large shrub, well clothed with clean foliage which turns brilliant red in Fall. Bunches of nodding flowers are borne on the whorled branches and these red-veined white cups are quite unlike any other flower. S

4 to 5 ft.....\$7.50 | 5 to 6 ft.....\$10.00

EUONYMUS alatus (*Corkbark Euonymus*). Particularly striking shrub, especially in Autumn and Winter with corky wings and scarlet Fall foliage and berries. Blooms white. M

18 to 24 in.....\$1.25 | 3 to 4 ft.....\$2.50
2 to 3 ft..... 1.75 | 4 ft., heavy..... 4.00

E. alatus compactus. Just as beautiful and much neater and slower in growth than the original. A grand specimen or may be used in foundation planting. S

18 to 24 in.....\$1.75 | 3 to 4 ft.....\$4.50
2 to 3 ft..... 2.50 | 4 to 5 ft..... 7.50

EXOCHORDA racemosa (*Pearl-Bush*). Slender spreading shrub with long clusters of creamy white flowers, appearing pearl-like in the bud. Grows to 10 ft. F

2 to 3 ft.....\$1.50

FORSYTHIA intermedia, Spring Glory (*Primrose Forsythia*). Truly the showiest Forsythia now known. The large, pale yellow flowers are of striking brilliance as Winter fades and Spring first appears. The masses of blooms are so crowded on the stems that the branches bow gracefully under the weight of their colorful burden. F

2 to 3 ft.....\$1.00 | 4 to 5 ft.....\$4.00
3 to 4 ft..... 2.50 | 5 to 6 ft.....\$5.00 to 7.50

F. intermedia spectabilis (*Showy Border Forsythia*). By far the best of the Forsythias in color, size of flower and profusion of bloom. Use a bold group for early Spring effect. F

2 to 3 ft.....\$0.90 | 4 to 5 ft., heavy.....\$2.50 to \$3.50
3 to 4 ft..... 1.25 | 4 to 5 ft., extra heavy..... 5.00 to 7.50

CALLICARPA purpurea (*Beautyberry*). A graceful spreading shrub growing about 3 to 4 ft. tall, bearing an abundance of small, pink flowers in August, followed by innumerable glittering, lavender-blue berries in dense clusters along the branches. F

18 to 24 in.....\$1.25
3 to 4 ft..... 2.50

CALYCANTHUS floridus (*Sweet Shrub*). An old-fashioned shrub, with chocolate-colored blossoms. Leaves and bark have a spicy fragrance. A splendid bush. M

2 to 3 ft.....\$1.00
3 to 4 ft..... 1.75
3 to 4 ft., heavy..... 3.50

CARYOPTERIS, Blue Mist. A charming, low-growing, shrub flowering in Summer and Fall. Covered with blue, mist-like blooms from August to frost. M

2 yr. plants.....\$1.00
3 yr. plants..... 1.50

CHAENOMELES lagenaria (*Flowering Quince*). Early blooming shrub with shiny, green foliage and deep crimson flowers. M

18 to 24 in.....\$1.00
2 to 3 ft..... 1.50
3 ft., heavy..... 2.50

Chaenomaes Hybrids

These hybrid Flowering Quinces bear larger flowers in profuse clusters against the branches before the shining green leaves appear. M

Cynthia. Soft peach-pink.

2 to 3 ft.....\$2.75 | 3 to 4 ft.....\$3.50

Early Appleblossom. A blend of light and deep pink.

3 to 4 ft.....\$3.50

Joliet. Coral pink.

2 to 3 ft.....\$2.75 | 3 to 4 ft.....\$3.50

Margaret Adams. Soft coral pink.

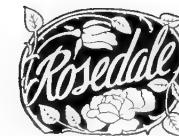

2 to 3 ft.....\$2.75 | 3 to 4 ft.....\$3.50

Hydrangea Macrophylla

Beautybush (*Kolkwitzia*)

FLOWERING SHRUBS—Continued

HAMAMELIS virginiana (*Witch-hazel*). Irregular spreading shrub with large, oval leaves. Blooms with small yellow flowers close to stem in November. Thrives on deep shade or full sun. M
3 to 4 ft. \$1.50 | 5 to 6 ft. \$3.50
4 to 5 ft. 2.50 | 6 to 7 ft. 5.00

HIBISCUS syriacus (*Rose of Sharon*). A rather erect and tall growing shrub of neat form. Blooms in late Summer, beginning in August and lasting usually until heavy frosts. Splendid plants in following varieties. M

H. s. Boule de Feu. Double red.
2 to 3 ft. \$1.00 | 3 to 4 ft. \$1.75

H. s. coelestis. Single, blue. An outstanding, newer form of a delightful shade.
3 to 4 ft. \$2.00

H. s. Comte de Haimont. Double pink, mottled white.
2 to 3 ft. \$1.00

H. s. Jeanne d'Arc. Double white.
2 to 3 ft. \$1.00 | 3 to 4 ft. \$1.75

H. s. Lady Stanley. Double, blush-white, splashed with deep pink. A very popular color and one of the best.
4 to 5 ft. \$3.50

H. s. Lucy. Double rose-red.
2 to 3 ft. \$1.00

H. s. totus alba. Finest single white of all.
2 to 3 ft. \$1.00
5 to 6 ft. \$3.50 to 5.00

HYDRANGEA arborescens (*Summer Hydrangea*). Large, pure white blooms in July and August. F
2 to 3 ft. \$1.50

H. macrophylla. Sometimes called the greenhouse Hydrangea. Bushy growth; flowers profusely in pink or blue shades according to soil acidity. F
3 yr. \$1.75

H. paniculata grandiflora (*Peegee Hydrangea*). The best known Hydrangea with immense, conical, pink and white blooms from July to September. F
2 to 3 ft. \$1.25
3 to 4 ft. 1.75
4 to 5 ft. \$2.50 to 3.50

H. Peegee (Tree Form). The standard or tree form can stand alone or in groups but need not be supported. The immense blooms weigh the branches down creating a weeping tree when in full bloom. An old-fashioned favorite. F
4 to 5 ft. tree, heavy \$5.00

HYPERICUM aureum (*Golden St. Johnswort*). The golden-yellow flowers in July and August measure 1 to 2 in. in diameter. Very interesting looking with its blue-green leaves, angular twigs, and peeling bark. This dense, upright shrub reaches about 3 ft. and is very hardy. S
18 to 24 in. \$1.25 | 2 to 3 ft. \$2.50

H. prolificum (*St. Johnswort*). A showy shrub of stiff, dense habit. Grows to 3 ft. Brilliant yellow flowers from July to September. S
2 to 3 ft. \$1.25 | 3 ft., heavy \$2.50

ILEX verticillata (*Winterberry*). Berrying plants. A fine, native shrub, carrying its bright red berries practically all winter. Upright habit with black bark and clean, attractive foliage. Plant in groups to insure production of berries. M

2 to 3 ft. \$1.25 | 4 to 5 ft. \$3.50
3 to 4 ft. 2.00 | 5 to 6 ft. 5.00
6 to 7 ft. \$7.50

KOLKWITZIA amabilis (*Beautybush*). A large, graceful shrub with slim, arching branches covered with pink flowers in June. We recommend it highly. M

2 to 3 ft. \$1.50 | 3 to 4 ft. \$2.50
4 to 5 ft. heavy \$5.00

LIGUSTRUM amurense (*Amur Privet*). True, hardy, upright variety with lustrous leaves. Good hedge plant for quick-growing screen as plants will attain 15 ft. in height. F
2 to 3 ft. \$2.75 per doz., \$22.50 per 100

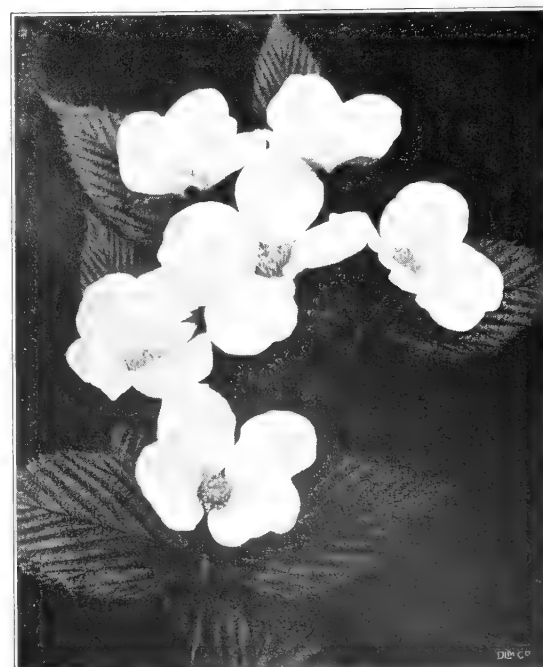

L. obtusifolium (*Ibota Privet*). Graceful, arching branches with small, white flowers in clusters. Makes a splendid informal hedge. Exceptionally hardy. F

4 to 5 ft. \$1.50 | 5 to 6 ft. \$2.50

L. ovalifolium (*California Privet*). The form most commonly used for hedges. F
18 to 24 in. \$2.00 per doz., \$15.00 per 100

2 to 3 ft. 2.50 per doz., 20.00 per 100
3 to 4 ft. 3.75 per doz., 30.00 per 100

L. Regelianum (*Regel Privet*). A low spreading form, almost horizontal. S
2 to 3 ft. \$1.00 | 2 to 3 ft., heavy. \$1.50

Jethead (Rhodotypos)

PHILADELPHUS Minnesota Snowflake (Plant Patent No. 538). A grand addition to the Philadelphus family which produces a profusion of large, very double, pure white flowers of some fragrance. Shrub grows bushy and shapely and in this respect very superior to Philadelphus Virginal. M
2 to 3 ft. \$1.50 | 4 to 5 ft. \$3.50
3 to 4 ft. 2.00 | 5 to 6 ft. 5.00

P. virginalis (*Double Mockorange*). Fine, double-flowering variety which blooms profusely. Fragrant. M
2 to 3 ft. \$1.50 | 3 to 4 ft. \$2.00

PRUNUS glandulosa (*Flowering Almond*). Profusion of deep pink, double rosettes on bare stems in late April and early May. Pink or white. M
2 to 2½ ft. \$1.75
2½ to 3 ft. 2.50
3 to 4 ft., B&B. 3.50

RHODOTYPOS tetrapetala (*Jethead*). Small, shapely shrub, bearing white flowers and black berries. Foliage handsome. Good for shade. M
2 to 3 ft. \$1.50

SALIX caprea (*Pussy Willow*). Desirable for early Spring effects and will do well in dry locations as well as wet. F
2 to 3 ft. \$0.85 | 6 to 8 ft. \$7.50

S. purpurea nana (*Dwarf Blue-leaf Arctic Willow*). A charming, low-growing Willow, suitable for edging and other small hedges. The foliage is a lovely silvery green. Plant 8 in. apart. M
2 to 3 ft. \$1.25 | 3 to 4 ft. \$2.00

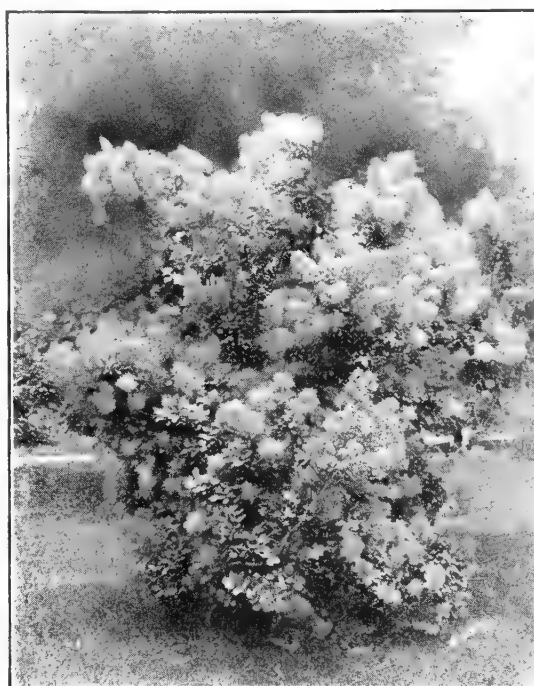

SORBARIA Aitchisonii (*Falsespiraea*). Brilliant green foliage and red stems make this extremely handsome. Clusters of foamy white flowers in late Midsummer. Grows to 6 or 8 ft. F
3 to 4 ft. \$2.50

SPIRAEA Bumalda, Anthony Waterer (*Dwarf Spirea*). A small, compact shrub with pink flowers in July. M
18 to 24 in. \$1.25
2 to 3 ft. 1.75

S. prunifolia (*True Bridalwreath*). Long racemes of pure white flowers in May. Small, glossy foliage. M
2 to 3 ft. \$1.50
3 to 4 ft. 2.50

S. Thunbergii (*Thunberg Spirea*). Semi-dwarf sort with very fine foliage and small white flowers. Dense. M
2 to 3 ft. \$1.25

S. Vanhoutteii. Ever popular variety, producing an abundance of small white flowers in clusters. F
2 to 3 ft. \$0.75
3 to 4 ft. 1.25
4 to 5 ft. 2.50

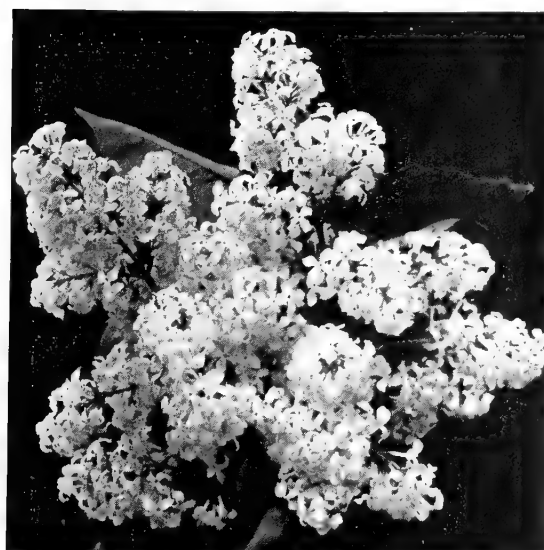

Smoke Tree (Cotinus Coggygria)

LINDERA Benzoin (*Spicebush*). Native shrub with fringed yellow flowers in early Spring. Leaves and twigs aromatic. F
4 to 5 ft. \$2.50

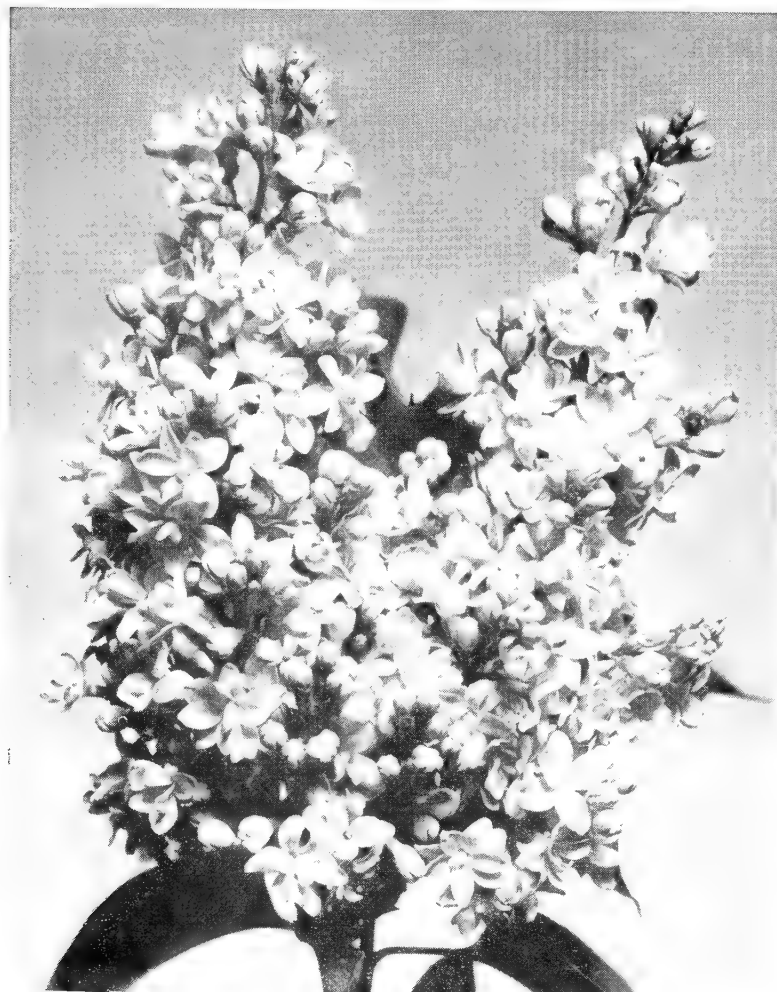

LONICERA tatarica (*Upright Honeysuckle*). Finest in habit of Bush Honeysuckles. A rapid grower attaining 10 to 12 ft. in height. May be had in either Pink or Whiteflowering varieties. F
3 to 4 ft. \$1.50
4 to 5 ft. 2.75

L. Korolkowii Zabellii. A new, very red shrub Honeysuckle of medium growth. Bears an abundance of red fruit and blossoms are bright and in great profusion. M
2 to 3 ft. \$1.25
3 to 4 ft. 1.75
4 to 5 ft. 2.75

PHILADELPHUS coronarius (*Sweet Mockorange*). Extremely fragrant variety of Mockorange. Blooms white in May and June. F
2 to 3 ft. \$1.00
3 to 4 ft. 1.50
4 to 5 ft. 2.50
5 to 6 ft. 3.50

Lilac

Lilac Hybrids

SYRINGA—Lilac

We have a quantity of plants much larger than those listed here and we shall be pleased to receive your inquiries or have you make a personal inspection of them.

HYBRID LILACS

Almost everybody knows and loves the old-fashioned purple Lilac, but only a few know how exquisitely lovely the French Hybrids are. They are just as easy to grow and bloom when they are even younger. The flowers are relatively huge and are borne in enormous clusters, sometimes six or seven clusters combined in one great truss. Here is a list of favorite varieties which are so exquisitely lovely and different that you will want them all in the border as specimens. M

2 to 3 feet, B&B.....	\$3.50
3 to 4 ft., B&B.....	5.00
4 to 5 feet specimens, B&B.....	\$7.50 to 10.00
5 to 6 feet specimens, B&B.....	9.00 to 12.00

Larger sizes priced on application

All Rosedale Lilacs carry a ball of earth to insure quick starting and real, husky first year growth. There is no extra charge for this better method of handling. Many new varieties in this list are most exciting.

Alphonse Lavalley. Double sky blue.....	2 to 3 ft., 3 to 4 ft.
Belle de Nancy. Double satiny rose.....	2 to 3 ft., 3 to 4 ft., 4 to 5 ft.
Capitaine Baltet. Single violet red.....	3 to 4 ft.
Charles Joly. Purple red; one of the best double reds.....	2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft.
Charles X. Single, rich purple-red.....	2 to 3 ft., 3 to 4 ft., 4 to 5 ft.
Edith Cavell.....	5 to 6 ft.
Ellen Willmott.....	3 to 4 ft., 4 to 5 ft.
Glory. Single, large flower of lilac shade.....	3 to 4 ft.
Hugo Koster.....	2 to 3 ft., 3 to 4 ft.
K. Havemeyer.....	3 to 4 ft., 4 to 5 ft., 5 to 6 ft.
Leon Gambetta. Double mauve pink.....	3 to 4 ft., 4 to 5 ft.
Lucie Baltet. Single, coppery pink.....	3 to 4 ft., 4 to 5 ft.
Macrostachya. Single, light pink.....	3 to 4 ft.
Marie Le Graye. Single, white.....	2 to 3 ft., 3 to 4 ft.

HYBRID LILACS—Continued

Mme. Casimir Perier. Double white.....	3 to 4 ft., 4 to 5 ft.
Mme. F. Morel. Single lavender.....	4 to 5 ft.
Mme. Lemoine. Tall-growing, double white.....	2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft.
Mme. Stepman.....	4 to 5 ft.
Monge. Single, claret purple.....	5 to 6 ft.
Pasteur. Single purple.....	4 to 5 ft., 5 to 6 ft.
Paul Thirion. Double claret rose.....	2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft.
Pres. Fallieres. Double, lavender-pink.....	2 to 3 ft., 3 to 4 ft.
Pres. Grevy. Double, popular blue.....	2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft.
Pres. Poincare. Double, purple red.....	2 to 3 ft., 3 to 4 ft., 4 to 5 ft.
Souvenir de Ludwig Spaeth. Single, reddish purple.....	2 to 3 ft., 3 to 4 ft., 4 to 5 ft.
Violetta. Double, deep violet-blue.....	3 to 4 ft.

S. chinensis (*Chinese Lilac*). Slender branched, graceful Lilac, producing abundant light lavender blooms early in the season. Good for border planting.

3 to 4 ft.....	\$2.50
4 to 5 ft.....	3.50

S. vulgaris (*Common Purple Lilac*). Considered by many as fine as any hybrid. Bears large clusters of fragrant purple flowers in May. M

2 to 3 ft.....	\$1.50
3 to 4 ft.....	2.50
4 to 5 ft.....	6.00
5 to 6 ft.....	10.00

S. vulgaris alba (*Common White Lilac*). Fragrant single white flowers. M

2 to 3 ft.....	\$1.50
3 to 4 ft.....	2.50

SYMPHORICARPOS albus laevigatus (*Snowberry*). Pink flowers and white berries in profusion. Thrives in shade, and is excellent for hillside. F

2 to 3 ft.....	\$1.25
3 to 4 ft.....	2.00

Spiraea Vanhoutteii

SYMPHORICARPOS Chenaultii. Pink-berried form of Coralberry. Grows compact and has a better than average foliage. F

2 to 3 ft.....	\$0.85
3 to 4 ft.....	1.50

S. orbiculatus (*Coralberry*). Bears clusters of small red berries which remain most of the Winter. F

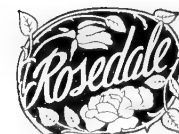

2 to 3 ft.....	\$0.85
3 to 4 ft.....	1.25

VACCINIUM corymbosum (*Highbush Blueberry*). A very desirable shrub for native planting. Flowers are creamy white. Brilliant Autumn foliage. M

2 to 3 ft.....	\$3.00
3 to 4 ft.....	4.50
4 to 5 ft.....	6.00

VITEX Agnus-castus latifolia. A graceful shrub with attractive spikes of lovely lavender blue flowers. Blooms profusely from July to frost. Dies back in Winter, similar to Buddleia. F

18 to 24 in.....	\$1.00
2 to 3 ft.....	1.25
3 to 4 ft.....	2.75

FLOWERING SHRUBS—Continued

VIBURNUMS

Probably comprise more desirable varieties for landscape use than any other family of Shrubs.

V. Carlesii (*Fragrant Viburnum*). Most fragrant of all flowering shrubs. A blossom of this delightful shrub will scent an entire room. Fairly dwarf and slow in growth, it eventually attains 5 to 6 ft. in height. Blooms are creamy white and borne in considerable profusion. Very scarce. S

15 to 18 in.....	\$1.50
18 to 24 in.....	6.00
2 to 2½ ft.....	7.50
2½ to 3 ft.....	9.00
3 to 3½ ft.....	12.00

V. cassinoides (*Witherod*). Large clusters of white flowers in June precede green berries which change to pink and finally blue-black. Leathery leaves add their touch of crimson and purple in Fall. An exceptionally clean, neat shrub which does well in moist places. F

3 to 4 ft.....	\$2.00
4 to 5 ft., B&B.....	3.50

V. dentatum (*Arrowwood*). Bushy shrub with white flowers and blue berries. Fine for shade. F

3 to 4 ft.....	\$2.00
4 to 5 ft., B&B.....	3.50
5 to 6 ft., B&B.....	5.00

V. dilatatum (*Linden Viburnum*). Finest of the Viburnums. White flowers followed by immense clusters of bright red berries which turn the entire shrub red. M

3 to 4 ft.....	\$3.50
4 to 5 ft., B&B.....	5.00
5 to 6 ft., B&B.....	8.00
Heavy specimens.....	Priced on selection

V. plicatum (*Double Japanese Snowball*). Showy white flowers in rounded clusters during June. Rich foliage and deep red coloring in the Fall.

2 to 3 ft.....	\$1.75
----------------	--------

V. plicatum tomentosum (*Single Japanese Snowball*). White flowers in profusion, followed by red berries. Foliage red in Fall. M

2 to 3 ft.....	\$1.50
3 to 4 ft.....	2.50
3 to 4 ft., heavy, B&B.....	3.50
4 to 5 ft., B&B.....	5.00

V. prunifolium (*Blackhaw*). Pure white flowers in May and June are followed by blue-black fruits in late Autumn. The vivid Fall coloring of the leaves and the interesting patterns from irregular branching make this most desirable.

2 to 3 ft.....	\$1.75
----------------	--------

Highbush Cranberry (*Viburnum opulus*)

V. Sieboldii. Vigorous shrub, attaining great size. Berries pink, changing to black. Large, deep green, leathery leaves. F

3 to 4 ft.....	\$2.50
4 to 5 ft., B&B.....	3.50
5 to 6 ft., B&B.....	5.00

V. setigerum. Large compound white flowers followed by huge clusters of bright red berries. Probably the most showy of all Viburnums when in berry. M

4 to 5 ft.....	\$5.00
----------------	--------

WEIGELA, Bristol Ruby (*New*) (*Improved Eva Rathke*). Bristol Ruby is a better Eva Rathke. Hardier and more vigorous, developing to a shapely shrub. Color is a soft ruby red shading to garnet crimson. F

2 to 3 ft.....	\$1.50	3 to 4 ft.....	\$2.00
4 to 5 ft.....	\$3.50		

W. Feerie. A fine pink Weigela, less coarse than other varieties. This graceful shrub produces an enormous profusion of charming flowers a week or so earlier than Florida. A most delightful soft pink. F

2 to 3 ft.....	\$1.50	3 to 4 ft.....	\$2.00
----------------	--------	----------------	--------

W. florida alba (*Candida*). Pure white flowers in June. Medium growth.

3 to 4 ft.....	\$2.00
----------------	--------

W. floribunda. Extremely vigorous, bright crimson flowers. Generally a large shrub. F

2 to 3 ft.....	\$0.75	3 to 4 ft.....	\$1.00
4 to 5 ft.....	\$1.50		

Weigela, Bristol Ruby

Trees and Shrubs Attractive to Birds

In response to the growing interest in plants which attract birds, we make the following suggestions, keeping in mind the fact that nesting sites as well as fruits are important:

Berberis Thunbergii	Japanese Barberry
Cornus florida	Flowering Dogwoods
Elaeagnus angustifolia	Russian Olive
Euonymus	Corkbark
Evergreens	All evergreen trees for nesting
Hypericum prolificum	St. Johnswort
Ilex verticillata	Winterberry
Juniperus communis hispanica	Slender Juniper
Juniperus virginiana	
Lindera Benzoin	Spicebush
Lonicera tatarica	Tatarian Honeysuckle
Malus	Flowering Crabs, in variety
Parthenocissus quinquefolia	Virginia Creeper
Parthenocissus tricuspidata	Boston Ivy
Sorbus aucuparia	Mountainash
Symphoricarpos	Coralberry and Snowberry varieties
Viburnum dentatum	Arrowwood
Weigela	In variety

ROSEDALE ROSES

Hardy and So Easy to Grow

LUSCIOUS COLORS IN PROFUSION IN JUNE AND DURING THE SUMMER

You can have a delightful Rose Garden in full bloom this year by planting **ROSEDALE ROSES** this Spring. We suggest April planting but you may order early and we will be glad to ship at the proper time. All Roses outside our local delivery area are shipped by parcel post at our expense.

Roses called for at the Nurseries are **fresh dug** and may be planted the same day.

ROSEDALE ROSES are easy-to-grow because they are acclimated stock and consequently take hold quickly in their new surroundings.

Hardy Hybrid Tea or Everblooming Roses

2 Years Old—Field-Grown—Low-Budded Stock—The BEST for Outdoor Planting

Caledonia. Large, white, very double, hardy and long lasting. Slightly fragrant.

Christopher Stone. Velvety scarlet-crimson. Very fragrant. Stands hot weather.

Condesa de Sastago. Pink two-tone. Coppery pink inside with golden tint outside. Raspberry fragrance.

Dame Edith Helen. Glowing pink, large and full. Intensely fragrant. Continuous bloomer.

Duquesa De Penaranda. Copper apricot in Summer; cinnamon-peach in Fall. Long-stemmed.

Edith Nellie Perkins. Pink two-tone. Salmon-pink inside; rich copper-tinged outside. Large, continuous bloomer; mildly fragrant.

Etoile de Hollande. Bright red. Large, loose, semi-double flowers of great fragrance.

K. A. Viktoria. White. Soft pearly white with lemon-yellow center. Very fragrant.

McGredy's Yellow. Long-pointed buds opening to buttercup yellow flowers. Lightly fragrant. Sturdy grower.

Pink Dawn. Deep rose opening to pink tinted with orange at base. Fragrant.

Poinsettia. The most brilliant of all red Roses. Vivid, velvety, high-centered buds open to long-lasting, perfectly formed flowers. Glossy green foliage. Vigorous and hardy.

Soeur Therese. Daffodil yellow. Buds are silvery yellow; blooms have markings of mauve red. Fragrant.

Rosedale's Selected Patented Hybrid Tea Roses

The choicest of all Hybrid Tea Roses—chosen for their unusually fine characteristics—profusion of enchanting colors, exceptional vigor, dependable hardiness or delightful fragrances.

Apricot Queen (Plant Pat. No. 464). Orange and apricot at base, to salmon-rose and pink. Long pointed buds. \$1.25 each.

Capistrano (Plant Pat. No. 922). Magnificent clear rose-pink without shadings. Immense blooms. Mild fragrance. 1950 All-America Winner. \$2.00 each.

Charlotte Armstrong (Plant Pat. No. 455). Blood-red opening to cerise. Beautifully shaped bud. Luxurious foliage. Moderate fragrance. \$1.50 each.

Countess Vandal (Plant Pat. No. 38). Bicolor. Coppery bronze and pink flooded with gold. Fine fragrance. \$1.50 each.

Crimson Glory (Plant Pat. No. 105). Oxblood red. Intense, deep vivid crimson. Wonderful fragrance. \$1.50 each.

Debonair (Plant Pat. No. 677). Rich, golden yellow. Large, double blooms. Very vigorous grower. \$1.50 each.

Diamond Jubilee (Plant Pat. No. 824). Warm, buff-yellow. Very large, long-lasting, fragrant blooms. Profuse. \$2.00 each.

Forty-Niner (Plant Pat. No. 792). 1949 All-America Rose Winner. Probably the most brilliant of all bicolored Roses. The inside of the petals is a vivid red with the outside a chrome yellow. A beautiful, tall and vigorous growing plant. Long-budded, mildly fragrant. \$1.75 each.

K. T. Marshall (Plant Pat. No. 607). Deep coral-pink suffused with yellow. Fruity fragrance. Tall, hardy and very vigorous. \$1.50 each.

Lowell Thomas (Plant Pat. No. 595). Clear, canary yellow. Large, very double blooms. Intermittent bloom. \$1.50 each.

Mme. Cochet-Cochet (Plant Pat. No. 129). Coppery rose-pink. Very large, semi-double blooms. Honey-like fragrance. \$1.50 each.

Mirandy (Plant Pat. No. 632). Maroon red. Both buds and blooms of unusual brilliance. Extremely large, very double flowers of penetrating fragrance. \$1.50 each.

Mission Bells (Plant Pat. No. 923). Glowing shrimp-pink, high-centered flowers. Richly fragrant. Heavily branched. 1950 All-America Winner. \$2.00 each.

Nocturne (Plant Pat. No. 713). One of the finest reds—an All-America Award Winner for 1948. Longest, streamlined buds. Cardinal-red with crimson shadings. \$1.50 each.

Peace (Plant Pat. No. 591). Canary yellow to creamy ivory. Deep yellow buds with cerise-tipped edges swelling to creamy-white blooms with delicate pink tints. Unusually large, double and long-lasting. The 1946 All-America Award Winner. \$2.00 each.

Rubaiyat (Plant Pat. No. 758). Rose-red. Very fragrant, double; long pointed buds. \$1.50 each.

San Fernando (Plant Pat. No. 785). Intense brilliant red with heady fragrance. Big glowing petals; long-lasting. 1948 All-America Winner. \$1.50 each.

Saturnia (Plant Pat. No. 349). Brilliant cardinal red inside; salmon-yellow outside. Pronounced fascinating fragrance. \$1.50 each.

Sutter's Gold (Plant Pat. No. 885). Bright yellow shaded with red. Most fragrant of all yellow Roses. 1950 All-America Winner and Top International Award Winner. \$2.00 each.

Taffeta (Plant Pat. No. 716). Tones of pink, salmon and apricot-yellow—changeable in its colorings like taffeta. Delightful. 1948 All-America Winner. \$1.50 each.

Tallyho (Plant Pat. No. 828). 1949 All-America Winner. A very unusual shade of pink with the outside of the petals almost a crimson. Beautiful buds on long stems unfold slowly to full, many petaled blooms. Rich, spicy fragrance. Easy to grow. \$2.00 each.

All \$1.50 Patented Hybrid Tea Roses are \$15.00 per dozen All \$1.75 Patented Hybrid Tea Roses are \$17.50 per dozen
All \$2.00 Patented Hybrid Tea Roses are \$20.00 per dozen

"The Big Ten Roses of All Time"

The judges of the All-America Rose Competition decided no Roses met the standards of excellence necessary, so no awards were made for 1951. Instead, they named the **Best Ten Roses of All Time**—We have all of them for you here at Rosedale Nurseries.

Floribunda Roses

FLORIBUNDA ROSES The Shrub-Type Roses

These Roses are large-flowered, very hardy and truly everblooming. They are noted for producing great masses of blooms. This group of Roses is used very effectively when grown in beds, or in border plantings and they are the finest for hedge purposes. Plant 2 to 3 feet apart.

Betty Prior (Plant Pat. No. 340). Pink. Outside of petals dark carmine; inside, several shades lighter. Single flower borne in large clusters. Best for mass planting. Very fragrant. \$1.35 each, 3 for \$3.50, \$13.50 per dozen.

Donald Prior (Plant Pat. No. 377). Red. Bright scarlet tinted with crimson. Semi-double and very free flowering. Fragrant. Continuous bloomer. \$1.35 each, 3 for \$3.50, \$13.50 per dozen.

Fashion (Plant Pat. No. 789). Oriental-red buds open to blooms of coral-pink suffused with gold. A new, eye-arresting color. Masses of long-lasting blooms. Enchanting delicate fragrance. 1949 Bagatelle Gold Medal winner. \$2.00 each, 3 for \$5.00, \$20.00 per dozen.

Floradora. Brilliant vermilion blooms. Prolific and continuous, June to Fall. \$1.25 each, 3 for \$3.35, \$12.50 per dozen.

Goldilocks (Plant Pat. No. 672). A rich, clear golden yellow showing up to excellent advantage against its dark green foliage. A neat grower of Sweetheart type and blooms freely. \$1.50 each, 3 for \$3.75, \$15.00 per dozen.

Permanent Wave (Plant Pat. No. 107). Bright red. Large, semi-double open blooms. Petals waved and crinkly. Slightly fragrant. Tall, long-lasting. \$1.35 each, 3 for \$3.50, \$13.50 per dozen.

Pink Bountiful (Plant Pat. No. 601). Soft, glowing pink. Profuse mass of color all Summer. Blooms open like miniature Hybrid Teas. Charming, nutty fragrance. \$1.50 each, 3 for \$3.75, \$15.00 per dozen.

Pinkie. Large, double, slightly fragrant pink flowers. Dwarf, bushy grower. Blooms profusely. \$1.50 each, 3 for \$3.75, \$15.00 per dozen.

Pinocchio (Plant Pat. No. 484). Small semi-double pink suffused with salmon blooms. Dwarf, bushy type. Very popular. \$1.50 each, 3 for \$3.75, \$15.00 per dozen.

Red Pinocchio (Plant Pat. No. 812). Glowing, velvety carmine. Wild Rose fragrance. Masses of full clustered blooms. Exceptionally free flowering. \$1.50 each, 3 for \$3.75, \$15.00 per dozen.

Summer Snow (Plant Pat. No. 416). White. Beautiful large clusters; good for mass of color. \$1.35 each, 3 for \$3.50, \$13.50 per dozen.

World's Fair (Plant Pat. No. 362). Scarlet to maroon. Dark, velvety clusters of blooms virtually hide this bushy plant. Large, double flowers open to show a mass of golden stamens. \$1.35 each, 3 for \$3.50, \$13.50 per dozen.

A constant source of satisfaction on walls, fences or trellises. These Climbing Roses require little care. Plant 4 feet apart.

Blaze (Plant Pat. No. 10). Scarlet. Vividly shaded, double flowers. An improved variety of Paul's Scarlet. Takes on everblooming characteristics as plant matures. \$1.50 each, 3 for \$3.75, \$15.00 per dozen.

Doubloons (Plant Pat. No. 152). Very large, golden yellow, double flowers in clusters on strong stem. Fragrant, profuse intermittent bloom. \$1.75 each, 3 for \$4.40, \$17.50 per dozen.

Dr. J. H. Nicolas. Cupped, rose-pink, very fragrant blooms in clusters. Very large flowers almost 6 in. in diameter. \$1.75 each, 3 for \$4.40, \$17.50 per dozen.

High Noon (Plant Pat. No. 704). Intense clear yellow. Long-stemmed, perfect buds. Produces all season. All-America winner. \$1.75 each, 3 for \$4.40, \$17.50 per dozen.

Mme. Gregoire Staechlin. Delicate pink flowers, stained crimson on outside. Huge, fragrant blooms in abundance in June. \$1.15 each, 3 for \$3.25, \$11.75 per dozen.

Mary Wallace. Bright pink flowers with luminous sheen. Very large, semi-double, fragrant. Famous dooryard Rose. \$1.15 each, 3 for \$3.25, \$11.75 per dozen.

New Dawn (Plant Pat. No. 1). Delicate pink. Blooms intermittently all Summer and Fall. One of the hardiest climbers. \$1.50 each, 3 for \$3.75, \$15.00 per dozen.

Paul's Scarlet. Red. Intensely red flowers borne in loose clusters. Most popular red climber. \$1.00 each, 3 for \$2.75, \$10.00 per dozen.

Silver Moon. White. Big, saucer-shaped, moon-white flowers with brilliant yellow centers. Handsome foliage. \$1.15 each, 3 for \$3.25, \$11.75 per dozen.

TREE ROSES

This year we are again able to offer you our exceptional roses in Tree or Standard Form. These fine plants with their crowns of glorious color add a charming note to your garden. Budded on sturdy stock, they bloom abundantly from June through frost giving both beauty and distinction.

We offer them in your favorite Hybrid Tea and Floribunda varieties under which listings you will find full descriptions.

Caledonia. White.

Capistrano (Plant Pat. No. 922). Deep rose-pink.

Charlotte Armstrong (Plant Pat. No. 455). Blood-red to cerise.

Crimson Glory (Plant Pat. No. 105). Velvety crimson.

Countess Vandal (Plant Pat. No. 38). Bronzy-pink.

Fashion (Plant Pat. No. 789). Coral-pink with gold.

Forty-niner (Plant Pat. No. 792). Flamboyant red and yellow.

Katherine T. Marshall (Plant Pat. No. 607). Coral pink with yellow.

Mirandy (Plant Pat. No. 632). Darkest red.

Mrs. E. P. Thom. Rich yellow.

Peace (Plant Pat. No. 591). Creamy-yellow with pink tints.

Pinocchio (Plant Pat. No. 484). Pink suffused with salmon.

Sutter's Gold (Plant Pat. No. 885). Rich yellow.

All varieties of Tree Roses \$5.00 each, 6 for \$25.00

Trailing Ground-Cover Roses

Excelsa. Red. Small red double flowers borne in considerable profusion. Shiny bright foliage on stems which hug the ground and make excellent cover for banks or rocky areas. Need no Winter protection or elaborate care. 75c. each, \$7.50 per dozen.

Wichuraiana. White. Clusters of starry white flowers. Glossy leaves. One of the best for bank covers. 75c. each, \$7.50 per dozen.

Miscellaneous Roses

Skyrocket. Hardy, shrub-like in character. Bears deep pink blooms throughout the season. Often covered with blooms, buds, and seed pods at the same time. \$1.25 each.

Posa Hugonis. Dainty, single yellow flowers on shrub-like plant. First to bloom in the early Spring. \$1.25 each.

We Recommend For Planting

For each plant, use a double handful of FARMANURE (See page 36) thoroughly mixed with your planting soil. A second application, about June 1st, on the surface will supply adequate organic food.

Farmanure, 25 lbs. \$1.35, 50 lbs. \$2.50.

OR
For each plant, use a single handful of AGRICO ROSE FOOD, a balanced fertilizer, 50% organic at time of planting. Gives quick as well as long-lasting effect. 5 lbs. 75c., 10 lbs. \$1.25, 25 lbs. \$2.75.

Climbing Rose, Blaze

Shade Trees for Comfort and Beauty—Cool Shade in Summer, Sunny Warmth in Winter

SHADE TREES

To have healthy, sturdy Shade Trees, it is necessary for the trees to grow in soil suitable to their needs, to be transplanted frequently to improve root systems and to be pruned in order to encourage shapely growth. Here at Rosedale we do these things systematically so that you will receive fine, sturdy stock. In addition, we are particularly careful to plant our trees far enough apart in wide-spaced rows to permit lateral as well as upright growth. We grow only those varieties which will thrive in this climate.

As an aid to your planning, we again make a few suggestions as to classifying these trees according to characteristics which when known might be helpful.

FAST GROWING

Acer platanoides.....Norway Maple
Acer saccharum.....Sugar Maple
Platanus occidentalis.....American Plane
Salix, Varieties of.....Willow
Gleditsia inermis.....Thornless Honeylocust

FOR HEAVY SHADE

Acer platanoides.....Norway Maple
Acer saccharum.....Sugar Maple
Fagus grandifolia.....American Beech
Fagus sylvatica.....European Beech
Platanus occidentalis.....American Plane
Quercus borealis maxima.....Red Oak

FOR LIGHT SHADE

Betula, Varieties of.....Birch
Gleditsia inermis.....Thornless Honeylocust
Salix, Varieties of.....Willow

FOR BRILLIANT FALL COLORING

Acer saccharum (Sugar Maple)... Red and yellow
Liquidambar (Sweetgum)..... Red and yellow
Nyssa sylvatica (Sourgum)..... Red
Quercus palustris (Pin Oak)..... Red and yellow
Quercus borealis maxima (Red Oak). Red

B&B means "Balled and Burlapped" where this is not indicated, trees will be dug bare root. If it is desired that they be dug B&B, an additional charge will be made.

PLANTING BARE ROOT MATERIAL

1. Plant at once, digging hole deep and wide enough to admit roots completely spread out.
2. Loosen soil at bottom of hole and mix with a small amount of Driconure.
3. Place plant in hole the same depth as previously planted in nursery. (Shows on trunk or main stem.)
4. Cover roots with soil mixed with liberal amounts of Driconure, firming soil with feet.
5. Complete filling hole with soil leaving catch basin effect at top to hold water.
6. Water thoroughly twice a week.

For planting B&B material, please see directions on page 5.

All Shade Trees Are Bare Root Except as Marked Balled and Burlapped (B&B)

ACER—Maple

The Maples are universally popular. They are regular in outline, vigorous growers, beautiful in foliage, and adapt themselves to almost any soil. The Norway Maple is especially desirable for street planting and thrives well near the sea.

A. palmatum atropurpureum (Redleaved Japanese Maple). A comparatively dwarf Maple, slow in growth and attaining ultimately about 20 ft. in height. Bright red foliage and branches. These are well shaped. All B&B. S

18 to 24 in. \$6.00	2½ to 3 ft. \$15.00	3½ to 4 ft. \$22.50
2 to 2½ ft. 10.00	3 to 3½ ft. 18.00	

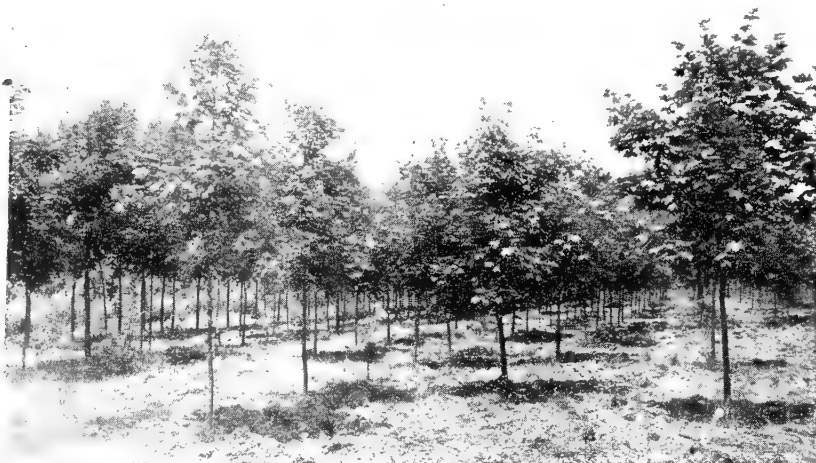

A. palmatum dissectum (Cutleaf Japanese Maple). Very dwarf form with finely cut purple red leaves. Very graceful and a real treasure when fully developed. All B&B. S

2 to 2½ ft. \$10.00

A. platanoides (Norway Maple). Foremost of the Maples because of its regular outline, widespreading branches and deep green foliage which is retained after the first heavy frosts. Becomes a good shade tree quickly. F

1¾ to 2 in. cal. \$12.00	2½ to 3 in. cal. \$22.50
2 to 2½ in. cal. 16.00	3 to 3½ in. cal. 27.50

Larger sizes priced on application

Norway Maples in the Nursery

SHADE TREES—Continued

ACER—Continued

- A. platanoides Schwedleri nigra** (Norway Maple, Crimson King, Patent No. 735). Crimson King is a beautiful form of Schwedler Maple originated in Europe. It is brilliant crimson all through the Summer months. Crimson King has been under observation in America for ten years and has kept its brilliant coloring all through the season. F
6 to 8 ft. \$10.00
- A. saccharum** (Sugar Maple). A beautiful tree of upright form. Attains a greater height than the Norway Maple and colors yellow and red in Fall. All B&B. F
1 3/4 to 2 in. cal. \$12.00
2 to 2 1/2 in. cal. 17.50
2 1/2 to 3 in. cal. 22.50

BETULA—Birch

- B. alba** (European White Birch). Very graceful habit and creamy white bark even in the young trees. All B&B. M
7 to 8 ft. \$10.00 | 2 to 3 in. cal. \$25.00
8 to 10 ft. 15.00 | 3 to 4 in. cal. 45.00
4 to 5 in. cal. \$75.00
- B. populifolia** (Gray or Silver Birch). Generally in clumps of two or more white trunks rising gracefully from the ground. The small leaves quiver at the slightest breeze. All B&B. M
5 to 7 ft. \$7.50 | 9 to 10 ft. \$15.00
7 to 9 ft. 12.00 | 10 to 12 ft. 22.50
12 to 14 ft. \$35.00
Larger plants priced on selection

FAGUS—Beech

- F. grandifolia** (American Beech). Grows slowly, but a handsome native, whose clean gray-barked trunks are familiar in light woods. Prefers well-drained soil and Spring planting. All B&B. M
12 to 14 ft. \$75.00
- F. sylvatica** (European Beech). For screen or hedge, this Beech is ideal among deciduous trees. It gives nearly as much screen in Winter as in Summer, owing to the fact that the dead leaves persist in Winter. As it bears the shears well, it may be kept within bounds for hedge purposes and grows as dense as any hedge. All B&B. M
6 to 8 ft. \$25.00 | 10 to 12 ft. \$50.00
8 to 10 ft. 35.00 | 12 to 14 ft. 75.00
- F. sylvatica atropunicea** (Rivers Purple Beech). This tree is similar to the European Beech except for its beautiful purple foliage Handsome and dignified. All B&B. S
4 to 5 ft. \$12.00 | 5 to 6 ft. \$20.00
12 to 14 ft. \$100.00

GLEDITSIA Honeylocust

- G. triacanthos inermis** (Thornless Honeylocust). This is a truly lovely tree. Its towering, spreading canopy of lacelike foliage is the epitome of light and airy grace. Freedom from insect pests is only one of its outstanding characteristics. Not entirely free from thorns but many less than the older form Triacanthos. Hardy and long lived. This tree is the answer to problem of planting something different in a shade tree. F
10 to 12 ft. 1 1/2 to 2 in. cal. \$10.00
2 to 2 1/2 in. cal. 15.00
2 1/2 to 3 in. cal. 25.00
3 to 3 1/2 in. cal. 35.00

MORAIN LOCUST

(Plant Pat. No. 836)

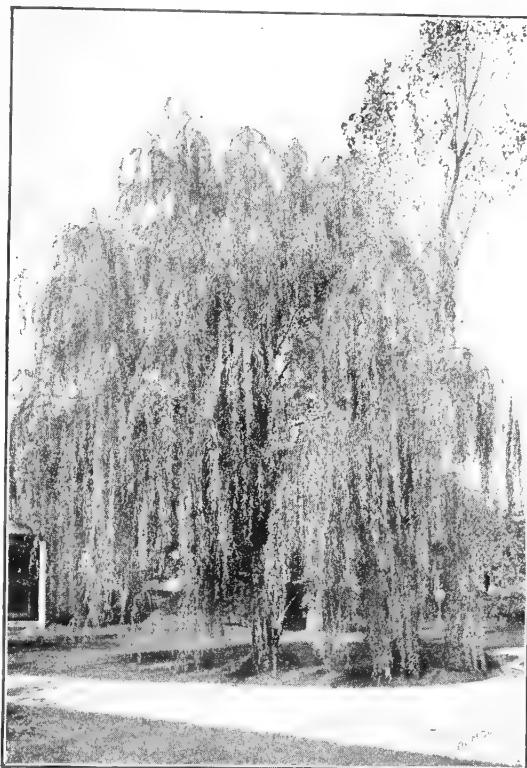

A thornless, seedless form of Honeylocust which is a most desirable addition to our shade tree varieties. Morain Locust grows rapidly, throws a light, airy shade and rapidly attains a vase shape. We highly recommend it. F
5 to 6 ft. \$6.00 | 6 to 8 ft. \$10.00

LIQUIDAMBAR—Sweet Gum

- L. styraciflua** (Sweet Gum). A most interesting and satisfactory shade tree. It likes moisture and grows to immense size. Star-shaped leaves are blazing scarlet in Autumn. Very resistant to insects. All B&B. S
2 to 2 1/2 in. cal. 20.00 | 2 1/2 to 3 in. cal. \$27.50
3 to 3 1/2 in. cal. \$35.00

NYSSA—Sour Gum

- N. sylvatica** (Sour Gum or Tupelo). A small spreading tree which likes low ground and has the most brilliant Fall coloring of all shade trees. S
5 to 6 ft. \$9.00

Weeping Willow (Salix babylonica)

PLATANUS—Plane

- P. occidentalis** (American Plane). This grand native American tree is sometimes called Buttonball or Sycamore. It attains great size and spread with open-branching and as soon as it reaches a little age will reveal attractive white bark. Leaves are large and the shade provided is light and airy. We recommend it highly for a rapid growing shade tree in well drained soil. F
1 1/2 to 2 in. cal. \$10.00 | 2 to 2 1/2 in. cal. \$15.00
2 1/2 to 3 in. cal. \$20.00

European Beech

QUERCUS—Oak

The Oaks, especially when they attain size, are the most picturesque of all trees, symbolizing strength and durability. Their yearly growth equals that of almost any other species.

- Q. palustris** (Pin Oak). A superb and distinct tree. The Pin Oak's graceful, drooping branches support a mass of deeply lobed, sharply pointed leaves, changing to deep red in Autumn. M
1 to 1 1/2 in. cal., 6 to 8 ft. \$9.00
1 1/2 to 1 3/4 in. cal. 12.00
1 3/4 to 2 in. cal. 15.00
2 to 2 1/2 in. cal. 22.50
2 1/2 to 3 in. cal., B&B. 35.00
3 to 3 1/2 in. cal., B&B. 45.00

SALIX—Willow

- S. babylonica** (Weeping Willow). Long, stringy branches droop vertically to the ground and with the narrow, light green leaves create a soft, velvety texture; grows rapidly especially when close to water. F
5 to 6 ft. \$3.00 each, \$27.50 per 10
8 to 10 ft., B&B. \$7.50
10 to 12 ft., B&B. 10.00
12 to 14 ft., B&B. 15.00
- S. babylonica aurea** (Golden Twig Weeping Willow). F
8 to 10 ft., B&B. \$7.50
10 to 12 ft., B&B. 10.00
- S. sepulcralis** (Salamon Weeping Willow). Similar to Babylonica, but less pendulous—ascending branches and pendulous branchlets; sturdier than Babylonica. F
10 to 12 ft., B&B. \$10.00
12 to 14 ft., B&B. 15.00
2 1/2 to 3 1/2 in. cal., B&B. 25.00

TILIA—Linden

- T. tomentosum** (Silver-leaved Linden). This is our best form of Linden, having clean, silvery foliage not readily affected by aphids or beetles; very desirable tree. M
2 to 2 1/2 in. cal. \$20.00 | 2 1/2 to 3 in. cal. \$25.00
3 to 3 1/2 in. cal., B&B. \$40.00
3 1/2 to 4 in. cal., B&B. 50.00

Rosedale method of burlaping and lacing insures safe transplanting.

Fibrous roots result from frequent transplanting and root-pruning.

Knowledge, experience and skill make for careful handling and delivering Rosedale big trees. Big trees provide immediate shade and mature effects.

Bearing Age Apple Trees for Landscaping as Well as Fruit

FRUIT TREES

Quantity prices on all Fruit Trees will be quoted on request specifying number needed

APPLES

One of the most satisfactory of all lawn trees is a well-proportioned Apple tree, attractive at all times and really gorgeous when in full bloom. It follows with a generous crop of one of the finest of all fruits.

BEARING AGE APPLE TREES

Again this year we are able to offer a small quantity of landscape-size Apples. These trees are 2 inches or over in caliper, 7 years old, and have been rigidly pruned and cared for and are ready to bear.

May be delivered locally with ball of earth.

Personal selection at the nurseries only

Planting Bare Root Material:

1. Plant at once digging hole deep and wide enough to admit roots completely spread out.
2. Loosen soil at bottom of hole and mix with a small amount of Driconure.
3. Place plant in hole the same depth as previously planted in nursery. (Shows on trunk or main stem.)
4. Cover roots with soil mixed with liberal amounts of Driconure, firming soil with feet.
5. Complete filling hole with soil leaving catch basin effect at top to hold water.
6. Water thoroughly twice a week.

Two-Year Old Apple Trees

The best size to plant for a good sized orchard but will take 4 years or more to bear. This stock is propagated from bearing orchards of superior strains. Plant 30 feet apart.

Selected No. 1 Grade. 11/16 inch caliper
5 to 7 feet, each \$1.75, 3 for \$5.00

In order to assist you in planning we state after each Apple whether it is self-fruitful, meaning it does not need cross pollination with another tree in order to bear fruit or, it does need a cross pollinator and which ones we recommend.

Baldwin. Well-known red. Winter Apple. Keeps well, fine flavor, juicy, crisp. Excellent for cooking and eating. Self-fruitful.

Cortland. An improved McIntosh type. Winter Apple with McIntosh flavor and quality but with tendency to cling to tree more than McIntosh. All-purpose Apple. Slightly self-fruitful. Cross pollinators: McIntosh, Red Delicious.

TWO-YEAR-OLD APPLE TREES—Continued

Delicious, Red. Large, dark red. Winter Apple. Crisp, fine flavor. Good for cooking and eating. Cross pollinators: Cortland, McIntosh.

Delicious, Yellow. Golden yellow. Winter Apple. Firm, juicy. Good for cooking and eating. Self-fruitful.

Gravenstein, Red. Crisp, tart-flavored, solid dark red Autumn Apple. Popular for eating and cooking. Self-fruitful.

McIntosh Red. Leading commercial variety for New York State. Attractive, red Winter Apple of white, tender, juicy flesh, fine eating and cooking. Bears fairly young. Cross pollinators: Cortland, Red Delicious.

Red Astrachan. Crimson. Summer Apple. An old favorite for cooking and eating. Cross pollinators: McIntosh, Red Delicious.

Red Spy. Bright red. Winter Apple. A more recent development of the Northern Spy, good for cooking and eating. Cross pollinator: Cortland, McIntosh, Delicious.

R. I. Greening. Large yellow-green Autumn Apple unexcelled for cooking. Bears well, keeps well. Self-fruitful.

CRABAPPLE

Selected, No. 1 Grade, 11/16 inch caliper, 5 to 7 feet—\$1.75 each, 3 for \$5.00

These varieties are self-fruitful. Plant 15 to 20 feet apart.

Dolgo. Handsome Red Crabapple in early September. Hardy, productive, juicy; superb for ruby-red jelly, pickling, and exceptionally good for cider.

Hyslop. Brilliantly colored purplish-red Crabapple. Most popular Crab for preserving. Very hardy. Ripens about 2 weeks after Dolgo.

CHERRIES

1-year-old trees, 11/16 inch caliper, 4 to 6 feet
Top Grade, \$2.50 each, 3 for \$7.00

Plant any two Sweet Cherries for cross pollination.

Plant Sour Cherries 15 to 20 feet apart.

Plant Sweet Cherries 25 to 30 feet apart.

Black Tartarian. The favorite large, black sweet Cherry. Juicy and very rich. Early ripening—about late June.

Governor Wood. Large, light yellow and red sweet Cherry. Excellent for home use. Very productive. June.

Montmorency. Best sour Cherry. Productive, hardy, finest flavor. Early, about July. Self-fruitful.

Schmidt's Bigarreau. Very large, purplish-red sweet Cherry of splendid flavor; early, about July.

Windsor. Delicious, large, firm purple; almost black Cherry. Very vigorous growing and productive. Hardest Sweet Cherry. Excellent for July eating and canning.

Baldwin Apple

FRUIT TREES—Continued

PEACHES

Selected, 1-year Budded Trees, 11/16 inch caliper, 3 to 5 feet—\$1.25 each, 3 for \$3.00

The varieties listed are self-fruitful. Plant 15 to 20 feet apart.

Belle of Georgia. Well-known white freestone Peach ripening late August. A rich, creamy Peach with red blush.

Early Elberta. An excellent new freestone variety resembling Elberta but more round and ripening about 10 days earlier.

Elberta. Most popular and best known yellow Peach. Handles well, of good flavor, juicy and freestone. Ripens early September.

Golden Jubilee. Extremely popular, hardy new Peach. Large, golden-yellow, red-blushed fruit. Freestone. Best early yellow Peach, ripening about mid-August.

Hale-Haven. Beautifully colored yellow Freestone. Very hardy and vigorous. Ripens about ten days ahead of Elberta.

Red Haven. Excellent flavor of the South Haven and Hale-Haven but ripens much earlier—in mid-August. Earliest yellow Freestone. Yields well and is hardy.

Valiant. A juicy, yellow Freestone of good quality, similar to Elberta. Yellow with red blush. Early September.

APRICOT

Moorpark. Large, round fruit. Orange with red cheek. Rich flavored, juicy flesh. Self-fruitful. Plant 15 to 20 ft. apart. 2 yr., 11 16 in. caliper, \$2.00

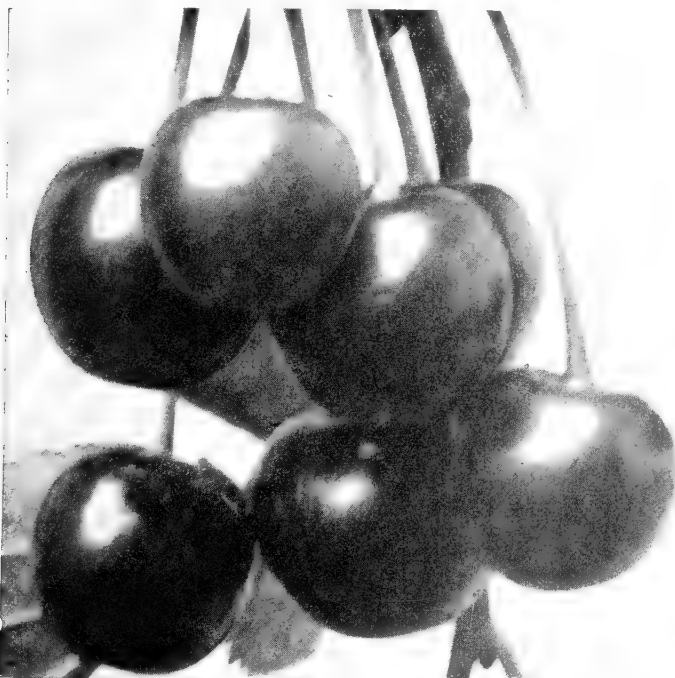

QUINCE No. 1. Grade

Orange. An excellent large round golden yellow fruit. Fine for jellies and jams. Self-fruitful. October. Plant 20 to 25 ft. apart. 1 yr., 1/2 in. caliper, \$2.00.

PLUMS

Selected, First-Class Trees, 2 years old, 11/16 inch caliper—\$2.25 each, 3 for \$6.00

Abundance. Large fruit, amber turning to red. Very tender, sweet and juicy—good for canning. Early August.

Montmorency Cherry

Burbank. Large cherry-red Plum ripening about mid-August. Hardy, good producer.

Reine Claude (Green Gage). Large yellowish-green Plum of rich flavor and pleasant aroma. Mid-season, early September. Cross-pollinate with Stanley or other American or European variety.

Stanley. Large, deep bluish-purple Plum with excellent sweet flavor. Best for commercial or home use. Midseason, about September.

For Cross Pollination:

Abundance and Burbank are Japanese varieties and should be planted together for pollination. Stanley, an American variety, is self-fruitful; American and Japanese varieties do not mix. Plant 15 to 20 feet apart.

PEARS

Selected, No. 1 Grade—2-year-old trees, 11/16 inch caliper—\$2.25 each, 3 for \$6.00

All Pears are self-unfruitful—so plant with another Pear for cross-pollination.

Bartlett and Seckel are incompatible for cross-pollinating each other, so other varieties should be used.

Plant 15 to 20 feet apart.

Bartlett. Most popular all-purpose Pear. Large golden yellow fruit with pale blush. Excellent flavor. August–September.

Beurre Bosc. Large, deep yellow overspread with russet. Unsurpassed in quality and flavor. White fleshed. September.

Clapp's Favorite. Resembles Bartlett—large yellow fruit with brown flecks. Ripens a week or two earlier than Bartlett in August.

Flemish Beauty. Fine large, sweet juicy fruit. Strong grower and good bearer. September–October.

Seckel. One of the most delicious and ever popular varieties. Small, russet brown Pears, ripening in October. Bears abundantly.

Sheldon. Large, round, russet and red Pears of first quality. Delicious. October.

DWARF FRUITS

Dwarf Fruits are very scarce and we regret we can offer only a very limited supply this year. These are on Malling root stocks and will remain small and bear younger than standard types.

APPLES: Cortland, Delicious, Early McIntosh, McIntosh, Northern Spy, Yellow Transparent. 2 yr., 9/16 in. caliper. \$3.75 each.

PEARS: Bartlett, Clapp's Favorite, Duchesse D'Angouleme. \$3.00 each.

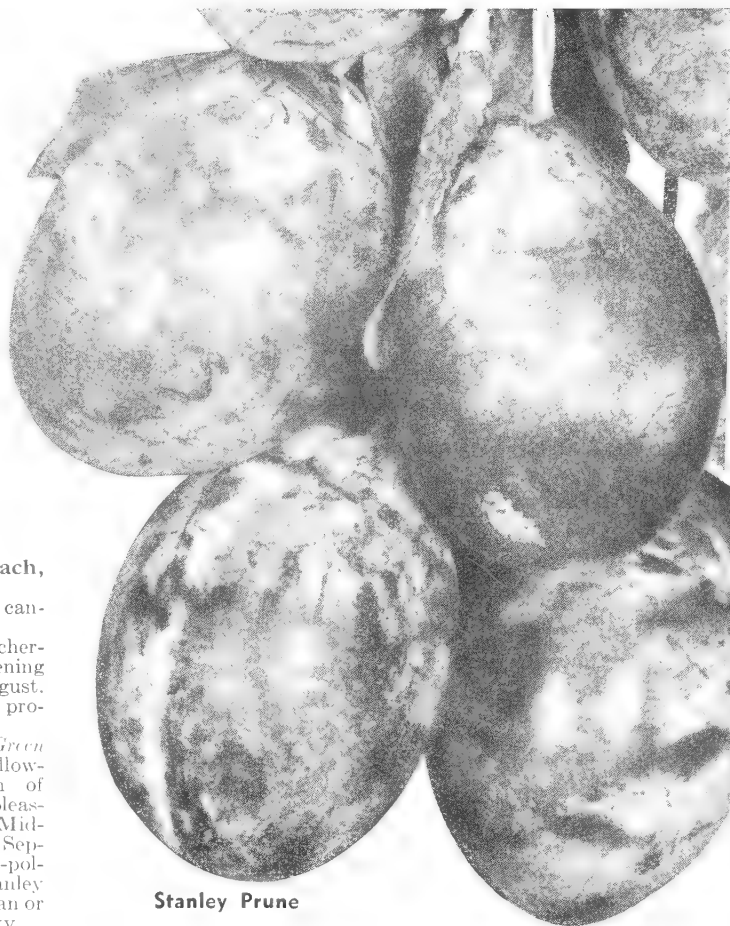

Espalier Trees

Unique for Their Beauty, Utility and Delicious Fruit

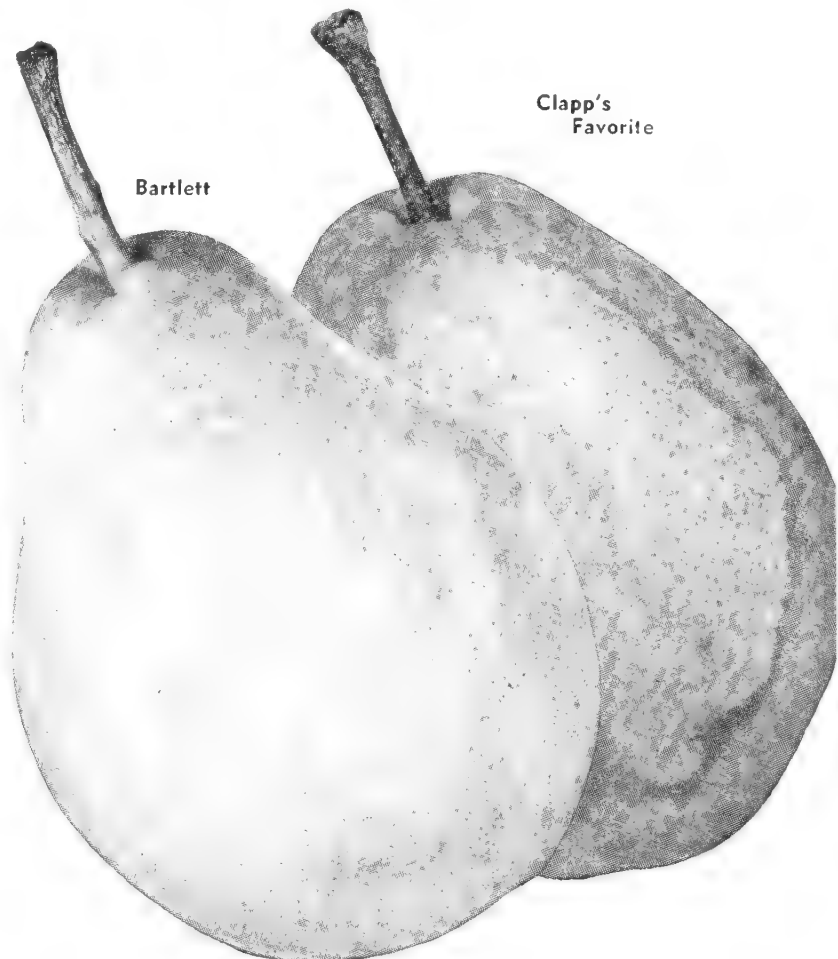

Beautify your home with an orchard growing on vines. Fruit trees grow in artistic, vine-like patterns against any wall, trellis or fence. They yield an abundance of delicious fruit that is often larger and richer than fruit from regular trees.

These genuine Espalier Fruit Trees are propagated from true dwarf roots and scions which limit their size and growth. They require no more care than a small shrub or climbing Rose. Many of these 7-year-old trees have a spread of 10 feet or more and up to 7 feet high. All are dug with a generous ball of earth and for this reason no shipping orders can be taken. Delivered anywhere in Westchester County.

Not only are there many sizes and styles, but many varieties of Apples. For this Spring planting only, they are priced from \$12.50 to \$25.00 each.

Clapp's Favorite

SMALL FRUITS

For Success with Small Fruits

1. Entire planting area should be ploughed or spaded to 8 inches or more depth.
2. Open a narrow trench and mix a liberal quantity of Driconure in bottom of trench.
3. Insert plants 2 to 3 feet apart. Rows should be 3½ to 4 feet apart.
4. Replace one-half soil and tamp firmly, adding more Driconure. Fill trench, leaving catch basin effect for watering. Water thoroughly twice weekly until started.

BLACKBERRIES

Alfred. The Mammoth Blackberry. For the home garden, Alfred is the ideal Blackberry. Tremendously large berries from 1½ to 1¾ in. long, practically free from seeds and extremely juicy. Heavy. 2 yr. transplants, 25c. each, \$2.50 per doz.

GOOSEBERRIES

Poorman. A red Gooseberry of good quality. Prolific grower of medium size. Midseason. 2 yr., 45c. each, \$4.00 per doz.

HARDY GRAPES

Caco. Our finest Grape. Wine red with sweet, delicious flavor. Large berries earlier than Concord. 2 yr., 75c. each.

Catawaba. Fine large coppery-red Grape. Mid-October. 2 yr., 75c. each.

Concord. Most successful in this section. Blue-black; mid-September. 2 yr., 50c. each. Large, bearing age, \$2.00 each.

Delaware. Sweet red vinous. Late September. 2 yr., 50c. each.

Fredonia. Earliest good black Grape. Vigorous, hardy, productive. One of the best American red juice varieties. 2 yr., 50c. each. Large, bearing age, \$2.00 each.

Golden Muscat. New golden-yellow fancy type. Vigorous and productive. Large, bearing age, \$2.00 each.

Lindley. Excellent red type for general use. Large, bearing age, \$2.00 each.

Niagara. Pale green, sweet, ripens with Concord about mid-September. 2 yr., 50c. each. Large, bearing age, \$2.00 each.

Portland. A newer white Grape and one of the best for this section. Very early with a delicious flavor. About late August. 2 yr., 50c. each. Large, bearing age, \$2.00 each.

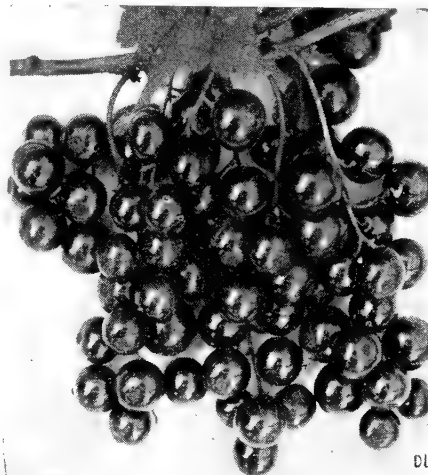

Sheridan. Black Improved Concord type with firmer, sweeter berries. Mid-September. 2 yr., 50c. each.

We recommend for a family of four the following number of plants—depending, of course, on your appetite for fruit:

Blackberries.....1 dozen plants
Blueberries.....1 dozen plants
Currants.....6 plants
Gooseberries.....6 plants
Grapes.....4 to 10 plants
Red Raspberries.....1 to 2 dozen plants
Black Raspberries.....1 dozen plants

CURRANTS

New Red Lake. Finest of all Red Currants. The berry is unusually large in size and superior in quality. The clusters are long and filled out to the top. Heavy yields. 2 yr. 45c. each, \$4.00 per doz.

Red Lake Currants

BLUEBERRIES

Cultivated—Producing Giant Berries

Cultivated Blueberries are one of the most satisfactory fruits for a wide variety of conditions. These Blueberries—a Rosedale Specialty—we offer in the most delicious, largest and best growing varieties basing our selections on our familiarity and many years experience with them in the field.

Every order for a dozen or more will include each of these fine varieties.

We offer large stock of ready-to-bear plants now 3 years old and set with fruit buds in the following varieties:

NEW VARIETIES

Weymouth—Early Dixie—Midseason

Atlantic—Late

All Three New Varieties:

3 for \$5.00, 5 for \$7.00, 12 for \$15.00

STANDARD VARIETIES

Cabot—Early Rancocas—Midseason

Jersey, Pemberton, Rubel—Late

3 for \$4.00, 5 for \$5.50, 12 for \$11.50—1½-2 ft. tall

Each order will contain three or more varieties for cross-pollination

Planting: Blueberries are hardy and need no special care. Dig hole large enough to accommodate the roots spread out. Mix plenty of peat moss or humus with the soil when planting. Plant in full sun or partial shade and mulch. This mulch is extremely important.

Uses: Blueberries are excellent for eating as fresh berries, for cooking as in pies, for freezing and for landscape purposes. The beautiful color changes in the foliage in the Fall, coupled with the bushy form of the plants makes it a handsome plant in the landscape.

Fredonia Grapes

No. 863

STATE OF NEW YORK

DEPARTMENT OF AGRICULTURE AND MARKETS

C. CHESTER DU MOND, Commissioner

CERTIFICATE OF INSPECTION OF NURSERY STOCK

THIS IS TO CERTIFY that the nursery stock of ROSEDALE NURSERIES of EAST VIEW, County of WESTCHESTER, State of New York, has been duly examined in compliance with the Agriculture and Markets Law, and has been found to be apparently free from all injurious insects and plant diseases. This certificate is valid until October 1st, 1951, unless revoked before that date.

Dated Albany, N. Y., Sept. 1, 1950.

C. CHESTER DU MOND,

Commissioner

A. B. BUCHHOLZ,

Director, Bureau Plant Industry

BRATE, ALBANY, N. Y.

We attach copy of our certificate on all our shipments. Look for it. It is your guarantee backed by our State Department of Agriculture.

RASPBERRIES

Bristol. Highest quality Black Cap. Widely adaptable, heavy producing. Unexcelled for canning and freezing. 2 yr. transplants, 40c. each, \$3.50 per doz.

Indian Summer. Red EVERBEARING. A grand new variety produced at Geneva Experiment Station. Produces a crop in mid-June and then again in early September until freezing weather. Vigorous. Hardy at Geneva. 2 yr. transplants, 40c. each, \$3.50 per doz.

Morrison. A new giant Black Raspberry. Fine flavor and less seedy than most varieties. Strong vigorous growing type. 2 yr. transplants, 40c. each, \$3.50 per doz.

Sodus. New purple Raspberry from N. Y. State Experiment Station. Fruit is large, firm and does not crumble. Hardy and productive. 2 yr. transplants, 40c. each, \$3.50 per doz.

Taylor. A new red Raspberry. Plants are vigorous, hardy, and productive. Long, conical shape, firm, thick flesh. Fairly early, about late June. 2 yr. transplants, 35c. each, \$3.00 per doz.

Indian Summer Raspberries

GLADIOLUS

There is nothing in the garden to equal the stalwart beauty of these colorful flower spikes. We offer extra fine varieties in an increased range of colors. Our bulbs are thrip-free and besides the regular large size bulbs we have the **Jumbo**—extra large—bulbs. Plant anytime from April to July for brilliant blooms this Summer until frost.

PLANTING:

Plant in full sun 3 to 6 inches deep, depending upon the size of bulb and texture of soil. Rich, well-drained loam with applications of fertilizer will encourage a more showy display of blooms. Bulbs should be dug in the late Fall after a killing frost—first cutting off the tops close to the ground. Dry and shake off soil. Keep in a dry place until replanting the next Spring.

NO. 1 BULBS

Excellent bulbs of first grade size and quality. Many people might consider these Jumbo bulbs, they are so large and firm.

Offered in the following varieties in groups of 25 BULBS—no less than 5 of any one variety—\$2.25, 100 for \$6.00, 1000 for \$55.00, postpaid

Picardy.....	Salmon-pink
Red Charm.....	Scarlet
Harmon.....	Vermilion
Mother Kadel.....	Bright yellow
Bernice.....	Buttercup yellow
White Fantasy.....	Ruffled white
Silentium.....	White, red throat
Roman Gold.....	Orange
Colossus.....	Pink and red; huge
Lavender Queen.....	Perfect lavender
Maid of Orleans.....	Pure white
Wanda.....	Lemon yellow
Margaret Beaton.....	Snow-white and red
Surfside.....	White and lavender lines

JUMBO BULBS

These fine, healthy bulbs are exceptionally large and worthy of the term "jumbo." We offer them in well-known varieties in the lovely "Glad" shadings of Reds, Lavenders, Pinks, Whites and Yellows.

Some of these are:

Snow Princess.....	A beautiful white
King Lear.....	A rich, velvety purple
White Gold.....	A rich cream
High Finance.....	Orange-gray
Stoptlight.....	Red
Purple Supreme.....	Deep lavender with silvery edge

AMAZING SIZE AND QUALITY

25 Jumbo Bulbs—No less than 5 of one variety,	\$2.75
100 for \$7.95	1000 for \$75.00
	Postpaid

WHY WE USE BOTANICAL NAMES

The Latin or Botanical names are used instead of general popular names to identify our plants in order to assure your receiving the exact **variety** you want. For example, if someone should ask us for Snowball—what should we offer? *Viburnum tomentosum* or *Hydrangeas*. "Snowball" is a popular term for both.

Furthermore, some plants have no popular names but only the horticultural. So it is for **your** protection that we use horticultural names. Common names are shown, wherever possible, immediately following the Botanical name.

RAINBOW COLLECTION

Full color range in only 5 varieties. Gaily hued, heavily flowered—a constant delight. All labeled.

Red Charm.....	Scarlet
Maid of Orleans.....	Pure white
Picardy.....	Salmon-pink
Iraq.....	Lavender
Mother Kadel.....	Bright yellow

25 bulbs (5 each).....\$2.00

50 bulbs (10 each).....\$3.75

MAIL ORDERS

While ours is primarily a local business within our truck delivery area we can handle Parcel Post, Express and Freight deliveries of all plants except those requiring a ball of earth.

No Mail Orders can be accepted for less than \$5.00 except on Bulbs.

No C.O.D. shipments will be made unless order is accompanied by a 25% deposit.

All shipping charges must be borne by the customer except where otherwise noted.

Please be sure to give correct shipping address and instructions.

Prices quoted herein are for a fine grade of plant and we reserve the right where necessary to change prices without notice and to charge for personally-selected plants according to their individual value. The illustrations and prices are typical of our large and varied stock, but specific plants may not be available at all times.

Please address all mail orders and communications to our Post Office Address—Eastview, N. Y.

A ROSEDALE GIFT CERTIFICATE

The Answer To Your Gift Problems

A plant or tree is always in good taste—always welcome—always suitable for any occasion—Birthdays, Easter, Christmas, House-warmings, Anniversaries or as a Memorial.

Living plants are the gifts that grow in size and value as the years go on. There is no need to ponder WHAT to select; the recipient has the fun of selecting just what he wants here at the nurseries. OR, if you prefer, you may select the plant to be given and there need be no mention of a stipulated amount. The Rosedale Gift Certificate is so worded that either the particular plant OR the amount given may be specified. For a gift certificate, just

SEND US: 1. The name and address of the person who is to receive the certificate.

2. YOUR name and address.

3. Your check or money order for the amount of the gift.

WE WILL: 1. Send the Gift Certificate to the recipient at once (or to you, the donor, if you prefer).

2. Send the Gift Certificate so as to arrive on a certain date if you will tell us the date.

There is no fuss and bother with the Rosedale Gift Certificate and more and more people are using this intriguing way of remembering—and being remembered.

3 AGRICO Fertilizers for Better Lawns and Gardens

Each of these three special-purpose AGRICO Fertilizers is made to do its own job and do it better than any all-purpose fertilizer could possibly do. Yet Agrico costs no more . . . is more economical to use . . . gives you more value, per pound and per dollar.

Agrico for Lawns, Trees and Shrubs

If you have a good lawn, keep it that way by feeding it with AGRICO every Spring and Fall. Use Agrico in rebuilding lawns. Also feed your trees and shrubs. Use 30 lbs. per 1000 square feet.

5 lbs.....	\$0.45	25 lbs.....	\$1.60
10 lbs.....	.80	50 lbs.....	2.55
100 lbs.....	\$4.75		

Agrico for Gardens

Use this special-purpose AGRICO for flowers of greater health and beauty—and for larger yields of vegetables, richer in minerals and vitamins. Use 40 lbs. per 1000 square feet.

5 lbs.....	\$0.45	25 lbs.....	\$1.60
10 lbs.....	.80	50 lbs.....	2.30
100 lbs.....	\$4.25		

Agrico for Broadleaf Evergreens

Rhododendrons, Azaleas and other acid-loving plants must be fed with care. This AGRICO provides all needed plant foods and also acidifies the soil essential for best results. Use approximately 1½ lbs. per 1000 running feet

10 lbs...	\$1.10	50 lbs...	\$2.90
25 lbs...	2.10	100 lbs...	5.50

COMPLETE INSTRUCTIONS PRINTED ON EVERY BAG

AGRINITE

An all organic fertilizer; 8¼% nitrogen, 100% organic. Use at rate of 4 lbs. per 100 square feet. Agrinite is not an animal manure or sewage by-product—it is clean, dry and grease-free, with no offensive odor. It is easy to apply by hand or by spreader, being carefully ground and screened to assure a free-flowing product. Whenever you need all-organic nitrogen, use Agrinite and see for yourself how efficient and economical it really is.

25 lbs.....	\$1.40	80 lbs.....	\$3.75
-------------	--------	-------------	--------

FARMANURE

A completely organic fertilizer composed largely of manure and peat moss, excellent soil conditioner and plant food. Easy to handle and may be used to great advantage without danger of burning on lawns, shrubs, evergreens, rose and vegetable gardens.

Packed in tight paper bags for convenient handling.

25 lb. bag.....	\$1.35	50 lb. bag.....	\$2.50
-----------------	--------	-----------------	--------

AGRI-LIME

A finely ground limestone for lawns, gardens and flower beds.

50 lbs.....	\$0.90	100 lbs.....	\$1.50	1 ton.....	\$18.00
-------------	--------	--------------	--------	------------	---------

IMPORTED HORTICULTURAL PEAT MOSS

Imported Peat is once again available in quantity. This is clean, compressed peat so valuable as a mulch or used liberally in planting Broad-leaved Evergreens, Blueberries, etc.—in fact, a good soil conditioner for almost anything. Lightens heavy soils, retains moisture in light soils, stimulates root development.

Junior Bales.....	\$3.00	Standard Bales.....	\$4.50
-------------------	--------	---------------------	--------

NATURAL HUMUS

A screened Natural Humus full of plant food and organic material. Especially recommended for mulching broadleaved evergreens and for mixing with soil in planting where top soil is poor. Sold in bulk.

Per cubic yard. . . \$9.50—Packed in sacks approximately 80 lbs. \$1.75

BONEMEAL, SHEEP MANURE, ALUMINUM SULPHATE and SUPERPHOSPHATE available at current prices. Our Fertilizer Department will be glad to advise you.

GOOD-RITE Z. I. P.

Reg. U. S. Pat. Off.

THE DEER REPELLENT THAT REALLY WORKS!

STOP DEER-DAMAGE TO TREES, SHRUBS AND CROPS

Once deer nibble Z.I.P.-sprayed leaves, vines or twigs, they find the taste so unpalatable they stop—for good!

Dilute GOOD-RITE Z.I.P. with water and apply as spray. Resists washing off—even by heavy rains.

We have used this material in the nurseries and have found it very effective. It can save you hundreds of dollars in protecting your plant materials.

5 lbs.....	\$3.75	50 lbs.....	\$35.00
------------	--------	-------------	---------

ESPOMA

A new and complete organic fertilizer. We believe Espoma to be one of the best organic fertilizers on the market. Peat Moss, Manure and Bonemeal, etc. are used to give this soil conditioner and fertilizer its long-lasting value.

25 lbs.....	\$1.45	50 lbs.....	\$2.45	100 lbs.....	\$3.95
-------------	--------	-------------	--------	--------------	--------

SACCO 4-12-4

A balanced fertilizer with a considerable organic content that does not easily burn and has value as a soil conditioner as well.

25 lbs.....	\$1.50	50 lbs.....	\$2.75	100 lbs.....	\$3.95
-------------	--------	-------------	--------	--------------	--------

WEDO—Double Acting Lawn Fertilizer KILLS WEEDS—FEEDS GRASS

Wedo is a specially formulated mixture of fertilizing elements (6-10-4) and 2-4-D; a most effective combination in weed control. Kills most broadleaf weeds and feeds grass at the same time. Easy to apply.

25 lbs.....	\$2.75	50 lbs.....	\$4.95
-------------	--------	-------------	--------

DU PONT GARDEN PRODUCTS

We offer a very complete line of DuPont chemicals for control of insect pests and fungous diseases. These materials are effective and easy to use. We highly recommend keeping an adequate supply on hand at all times and using as frequently as necessary.

For Roses and other Flowers DU PONT FLORAL DUST

Recommended for garden flowers, Roses, fruits, etc. A complete insecticide and fungicide. May be used as dust or spray.

8 oz. Dust Gun.....	\$0.79	1 lb. Sifter Top Can.....	\$1.15

For Fruits

DU PONT FRUIT TREE SPRAY

Recommended for control of many insects and fungous diseases affecting apples, peaches, cherries, pears, plums, apricots, quince, strawberries, currants, gooseberries. Specially formulated for spray application.

1 lb. canister.....	\$1.15	3 lb. bag.....	\$2.75
---------------------	--------	----------------	--------

For Vegetable Gardens

DU PONT VEGETABLE GARDEN DUST

Recommended for vegetables. A complete insecticide and fungicide—may be used either as dust or spray.

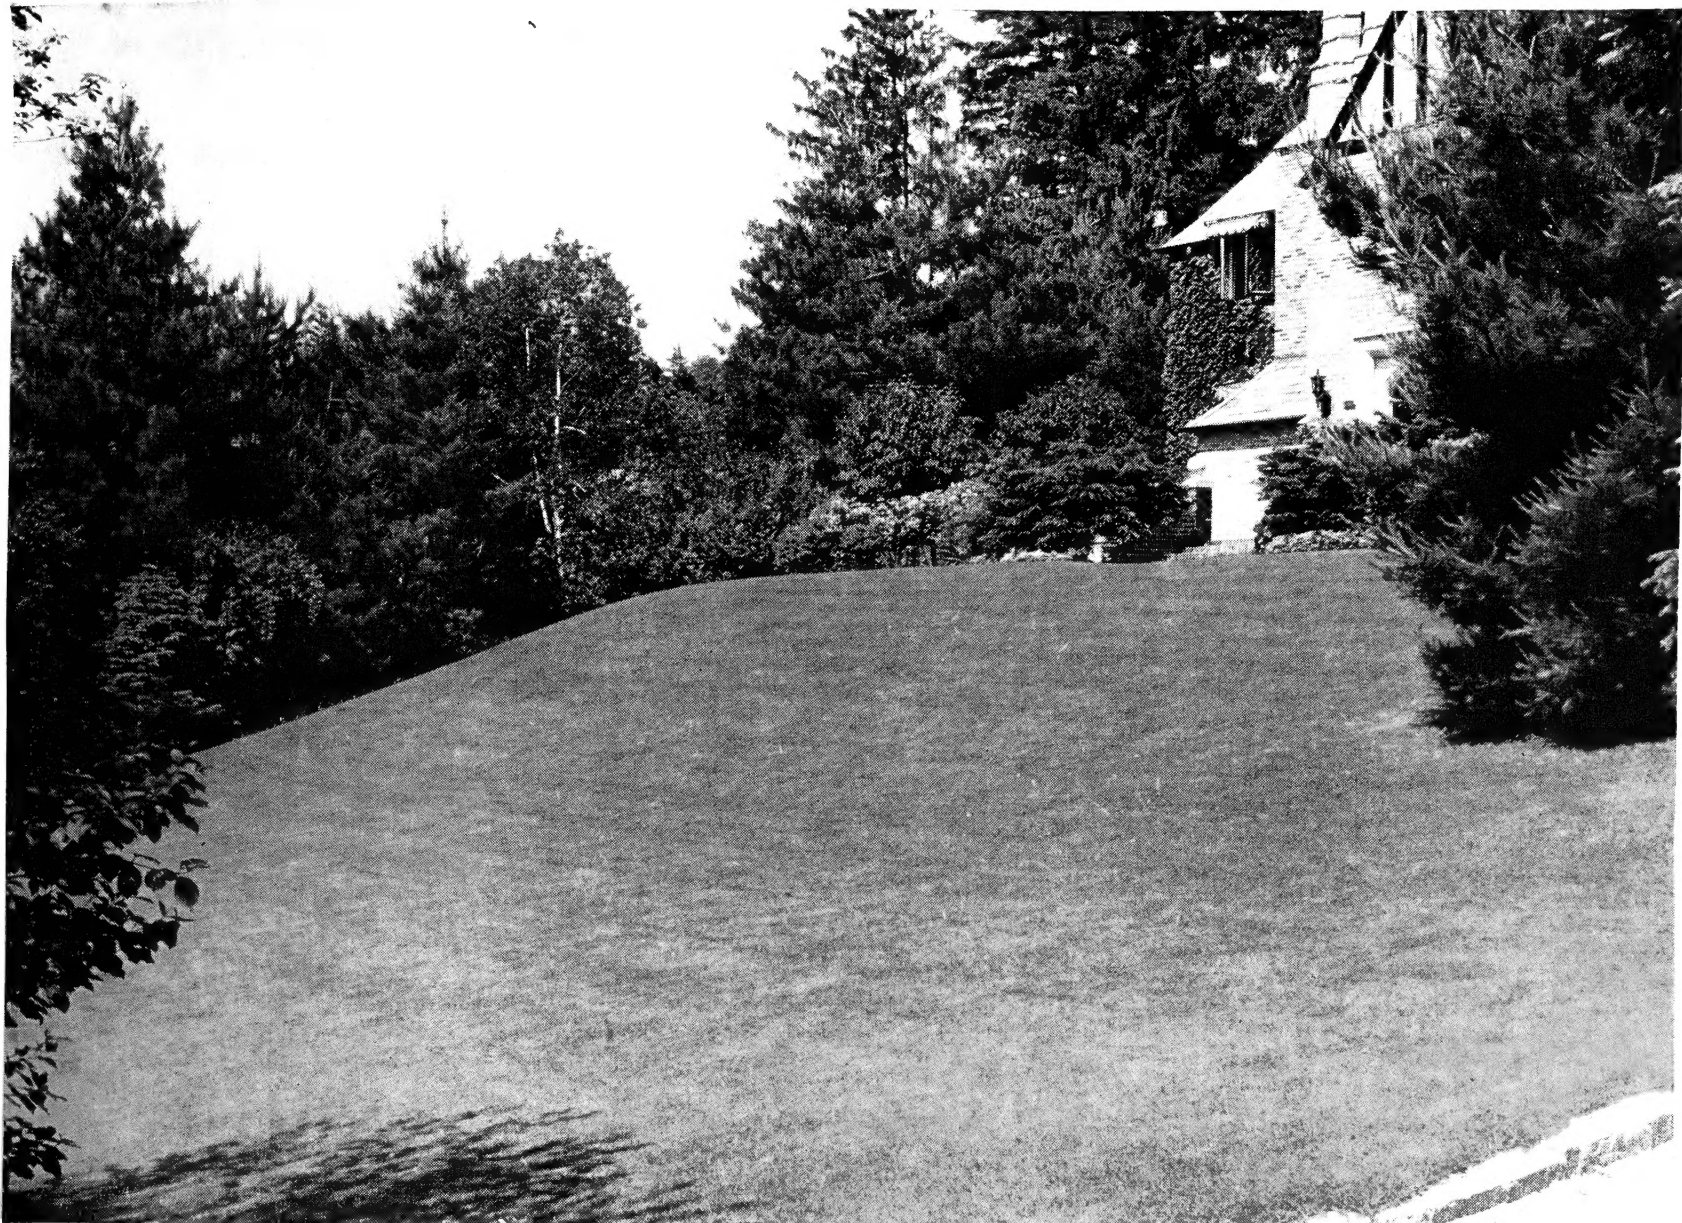

8-oz. Dust Gun.....	\$0.79	1 lb. Sifter Top Can.....	\$1.15
4 lb. canister.....			\$3.50

ROSEDALE LAWN SEED

Specially prepared for Southeastern New York State

A quality mixture of permanent grasses, mixed to our specifications for the usual soil condition in Westchester and nearby areas. Low weed content and high germination mean less seed is needed. Ideal for light shade or full sun. Sow at the rate of 5 lbs. per 1000 sq. ft.

2 lb. bags.....	\$2.45	25 lb. bags.....	\$27.50
5 lb. bags.....	6.10	50 lb. bags.....	52.50

We have recommended and sold **Scott's Seed** for over 15 years and we believe there is no better seed available on the market today. The clean, weed-free seed and well-balanced fertilizer make it simple to produce a velvety lawn which is the envy of your neighbors. **Scott Seed** is famous for its high germination and freedom from weeds and is, therefore, more economical. Even greater economy can be effected by using a **Scott Spreader** for sowing seed and spreading fertilizer.

SCOTT'S LAWN SEED. For lawns in full sun, light shade. Triple cleaned, 99.91% weedfree seed.

1 lb.	\$1.55
5 lbs.	7.65
10 lbs.	14.95
25 lbs.	36.50
50 lbs.	73.00
100 lbs.	145.00

SCOTT'S SPECIAL PURPOSE BLEND. Formerly Scott's DENSE

SHADE, recommended for such locations, also for poor, dry soils, terraces, playgrounds and other areas where growing conditions are not good and rugged turf is desired.
